Food-Keeping is important!

Modern housekeepers should appreciate the importance of keeping food always at the scientifically correct temperature. They should know that only constant dry cold-well below 50 degrees - can check bacterial growth. They should realize that year-round refrigeration is vital, because there is no natural refrigeration weather in California.

And most modern housekeepers naturally turn to this "years ahead" refrigerator. They like the fact that it operates so automatically that they never even have to oil it. They like its extreme quietness. They like the enclosed mechanism which is so safely sealed in its air-tight steel casing, away from floor dirt. Important, too, is the constant gentle upward cur-

Evidence of Value and Good Judgment

In establishing the value of improved real estate these two factors are of outstanding importance:

- (a) The type of loan that the owner has placed against the property,
- (b) The standing of the lender.

The fact that the loan on a property is held by a large institution whose appraisal system and loaning practice have been reduced to a scientific basis, is prima facie evidence of sound value. Likewise, it is evidence of the good judgment of the borrower.

Moreover, a loan carrying a fa-vorable rate of interest and held by an institution which is not going to call the loan at maturity because it needs the money for other purposes, is likely to prove an important consideration if the property should be offered for sale.

How and where to borrow are questions to which the average property owner gives far too little attention. The wrong type of loan, or too large a loan, or a loan made by a lender of diverse interests, may lead to unpleasant experiences.

The loaning service of the Mortgage Guarantee Company offers complete protection against the hazards of injudicious borrowing. It provides the right form of first lien loan for every legitimate purpose in the financing of building operations or the refinancing of previously improved property. It takes into consideration the requirements of the borrower; his ability to assume the necessary carrying charges, and his ultimate aims.

For example, the home builder or buyer whose aim is eventually to own his property free of all encumbrances may obtain through this service a fifteen-year loan at 6% interest and pay it off at the rate of 3% semi-annually. And if he so desires, he may have exemption from all payments against principal during the first three years, as well as the privilege of paying off the loan in full, without bonus, any time after the third year.

Any owner of improved property who wishes to refinance, or any owner of a desirably located lot who is planning to build, is invited to call and ascertain how our loaning service may be of assistance to him.

Ohioan Stricken on Visit to

War Comrade

Funeral Services Set fo 11 am. Today

BANTA ANA, Nov. 19. (Exclusive)

PRIENDS MOURN Amid the nation-wide attention attracted by the death of Dr. Harding, no mourning was deeper than that of the numerous friends he had gained on his visits to Santa Ana. He spent last winter at the Remsberg home, and was back to pass the second winter here when death overtook him. His widow, Mrs. Alice Harding, and two of his daughters, Mrs. Remsberg and Mrs. Heber Votay of Washington, D. C., were with him at the end.

There are two other children, Mrs. R. E. Lewis of Marion, O., and Dr. Ceorge T. Harding, Jr., of Worthington, O., also three sisters, Mrs. Ells Dickerson of Caledonia, O.; Mrs.

conty sen of Charles and Maky A.
(Crawford) Harding, Morrow-county ploneers.

Dr. Hardy traced his ancestral record back many generations (the original name was Harodene) and on his maternal side, was descended from the Crawfords and Davisee, famous in southern history. His maternal grandfather was a first cousin of Jefferson Davis. His grandmother Crawford was a first cousin of Alexander Stephens, famous leader of the southern cause. Dr. Harding bore the name of his great-gr ACTIVE IN GAR.

said was a conspiracy to smugge diamonds worth \$500,000 into the United States.

The chief steward of the Cunard liner Berengaria, a New York traffic officer and a John-street jeweler and his 20-year-old daughter were held in bail for the Federal grand jury charged with conspiring to bring in the stones. The arrests followed upon the reported discovery of diamonds in the stateroom of William Ballyn, the steward, by a squad of sixty customs men who searched the liner last Saturday.

The other defendants are John T. McIntyre, the policeman; Morris Landau, the jeweier, and Miss Frances Landau, the jeweier, and Miss Frances Landau. All furnished bail.

George H. Pike, Treasury Department agent, who made the formal complaints, said that gems had been coming in illegally at intervals since January 1, 1927. Alvin M. Sylvester, assistant Pederal attorney, who arraigned the four prisoners, said Ballyn on ten occasions had brought diamonds to the United States, receiving them from a Southampton consignor whose name was not divulsed.

Grange Asked

to Cultivate

WASHINGTON, Nov. 12. (P)—An effort to direct the attention of the National Grange, in convention here, to the radio field was made today by E. A. Eckert, Illinois member of the executive committee, who introduced a resolution demanding full protection of radio channels specializing in farm programs.

Mr. Eckert declared in presenting the resolution that many agricultural colleges and stations carrying farm programs have experienced difficulty in maintaining clear channels.

neis.

The resolution was referred to the committee on agriculture, and will be submitted for a final vote in the

NO OTHER COMPLAINTS

The is good ground to differentiate such organizations, Justice Van Devanter continued, from Masonic lodges, Knights of Columbus and other organizations exempted from making reports to the Secretary of State, because the purposes of the exempted organizations are well known. While many of them are cath-bound and secret, the Supreme Court cited with approval the declaration of another court that "we hear no complaints against them regarding violations of the Peace or interfering with the rights of others."

The case was brought before the Supreme Court on an appeal in the case or George Bryant, a member of the Buffalo Provisional Klan of the Knights of the Ku Klux Klan who was convicted for fallure to file a report required under the Walker law.

The Supreme Court in its ruling devoted much attention in the case to see if there was presented a Federal question giving it jurisdiction to review the conviction, all of its members with the exception of Justice McReynolds, held that such a question was presented. Justice McReynolds, however, insisted that the case should have been dismissed for want of jurisdiction. NO OTHER COMPLAINTS

PACT PROPOSED HUNT'S SPECIAL WITH AMERICA SESSION BEGINS

Lord Cecil's Suggestion May Arizona Legislature Hear

LONDON, Nov. 19. (P)—A responsible government spokesman soon may take up in Parliament the suggestions for an Angio-American navel accord made in the House of Lords recently by Viscount Cecil. President Coolidge has let it be known that the United States would consider the subject if the proposal came from a responsible British source. British official quarters, however, were reticent today on that

Great Wrestling Match in Which Electric Wizard Made Department-Store King Say Quits Described in \$10,000,000 Tax Suit

PHILADELPHIA, Nov. 19. (P)—
today at a hearing of the government's claim for an estate tax of tween Thomas A. Edison and the late John Wanamaker was told here

Dr. William Z. Quicksall, for a

biologope of the late.

Dr. William Z. Quicksall, for a number of years Mr. Wanamaker's physician, told the story. He said he had gone to St. Petersburg, Pla, in 1919 to care for Mr. Wanamaker.

"Mr. Edison also was at St. Petersburg," Dr. Quicksall said during his testimony as to Wanamaker's health, "and he and Mr. Wanamaker were close friends.

wearing. The elastic broke and the tie fell off.

"The two men clinched and wrestled vigorously despite their ages. Mr. Edison finally got Mr. Wanamaker's head in chancery's and rubbed his head hard with his knuckles. They reminded me of two boys at play. When Mr. Edison released Mr. Wanamaker they were both laughing and seemingly enloyed the scuffle."

Dr./ Quicksall's testimony, as to Wanamaker's physical condition in 1920 when he turned over the stock of his department store to his son Rodman, indicated him to be a man of unusual vigor. The government contends that Wanamaker save his sen \$'0.000,000 worth of stock two years before his death "in contempolation of his desth," and that it is tax-ble. Wanamaker hetrs claim the gift is not subject to tax.

PACKERS PLANNING MERGER

Two Orange County Plants' Officers Vote to Combine to Effect Economies and Facilitate Marketing

ORANGE, Nov. 19.-Two local packing-houses, the McPherso Heights and the Red Fox Orchards Associations, will merge their interest in a new corporation if the stockholders uphold the action taken by the two boards of directors at a meeting this morning. Better marketing conditions, increased output and reduced overhead expense were given

as the reasons for the merger.

The combined output of the two associations for the coming year will amount to 800 carloads, it is estimated, ranking the houses as one of the largest in Orange county. The decision of the directors will be placed before the stockholders either at a meeting or by petition for action.

The decision area of the directors will be placed before the stockholders either at a meeting or by petition for action.

AUTOMOBILE GOES ACROBATIC

Machine Takes High Dive at Telephone Pole, Hits It, Makes Rebound, Floors Walnut Tree and Does Gelaway From Vineyard as Climax

ONTARIO, Nov. 19.-Residents in the neighborhood of the Signoria Garage at Guasti were ondering today whether it was the powerful fluid in his automobile tank or moonshine in mooile tank or moonshine in his own system that caused an unidentified motorist to put his car through a series of airplane stunts here without killing himself or anyone else.

The motorist was traveling along Valley Boulevard at a pretty fast clip, Suddenly the auto plunged from the highway and butted into a telephone pole. It bounced back in the clear,

and continued across the soft soil, leaping and plunging into a walnut tree. The tree toppled over, roots and all, and yet the machine kept going. It finally stopped after going 200 feet into a vineyard, enguired by sand. A call was sent for Tramc Officer Freeman. While he was hurrying to the scene the motorist "stepped on it" and his car sped out of the sandy vineyard, and was gone when Freeman arrived.

man arrived.

The only thing that bounded out of the car was a quantity of liquor, distributed near the telephone pole and the walnut

TRIP REPEATED

Diaries of 1774-5 Used to Guide Expedition

University History Head Finds Valuable Data

Landmarks of 150 Years Ago Still in Existence

BRAWLEY, Nov. 19.—Guided by

BRAWLEY, Nov. 19.—Guided by diaries written a century and a half ago, Dr. Herbert Eugene Bolton of the Department of History at California University has just completed the task of tracing across the Imperial basin the route followed by Capt. Juan Bautiste de Anns in 1774 and 1775.

According to Bolton, many of the landmarks described in the ancient diaries have remained unchanged. He and his associates had little difficulty in tracing the route of the early explorers from Coyote Canyon by way of Laguns Salada in Mexico to Yuma. Mileage as computed by members of the expedition was found to be remarkably accurate.

The search completed in this district during the past week marks the final success of an undertaking started by Bolton more than twenty years ago and supplies confirmation to some of the most interesting data available for early California historians.

HUNTINGTON PARK
HUNTINGTON PARK
The local American Legion post opened its annual drive for membership tonight. Two teams have been formed, one headed by Henry Will and Lawrence Klinker and the other by E. W. HOTEL

WINTER RESORTS TO BE FEATURED

Tomorrow's issue of The Times will contain a special advertising fea-

ture of interest to winter vacationists and all who enjoy week-end trips dur-ing the sparkling days of Fall and Winter.

Setting forth practically every resort, hotel, and vacation trip popular among Southern Californians, this feature will not only furnish suggestions for immediate outings, but will be worth preserving for reference all through the coming months.

made in the Reichstag today by Foreign Minister Stresemann. He coupled these points with reitera-tion of Germany's demand for evac-uation of the Rhineland and an early determination of a new total which must be paid to the Allies-particularly France—in the way of war reparations.

war reparations.

It was Herr Stresemann's first ap-pearance in the national legislature since his breakdown in health five worths are

since his breakdown in health five months ago.

All members of the Reichstag, ex-cept the Nationalist "die hands" who cling to the old idea of German "welt macht," were present. The diplomatic gallery, too, was full, with Sir Horace Rumbold, British Am-bassador, occupying the center seat usually held by Jacob Gould Schur-man of the United States. CHEERS RESOUND

CHEERS RESOUND

Shouts of "Bravo" greeted the laudatory introductory remarks of Paul Loebe, President of the Reichstag, particularly when he congratulated Herr Stresemann on his restoration to health.

There was obvious interest in the Reichstag when the speaker came to the subject of the Anglo-French naval accord. He said that this accord itself could be "considered discarded," but he added:

"It does not seem superfluous to refer to certain fundamental considerations applying to that accord. However opportune it might seem that the ground for general disarmament discussions in Geneva be prepared through separate conversations between individual governments it is self-evident that all such individual understandings must remain subordinate to the common aim of world disarmament. They must not result in guaranteeing to certain countries the retention of armament factors in which those countries are most interested.

"More important than the immediate effects are the considerations of general political nature which attach to such conversations. If two powers whose roles—according to the Locarno security pact should be quite different—actually come to far-reaching agreements along mititary lines, that one fact would shake the foundations of the Locarno treaty as well as the Rhine pact."

Herr Stresemann indorsed the conduct of foreign affairs by Chancellor Mueller in the last few months and said he accepts responsibility for all steps taken in his absence by the Chancellor and that he fully agrees with the viewpoints that have been expressed. He made plain that this includes the disarmament views of the Chancellor and of Count von Bernstoff at the September meeting of the League of Nations when the German representative fought for the fixing of a definite date for a new general disarmament conference and argued that the time was ripe for reductions in land, sea and air forces.

SEPARATE ISSUES

MORTHLAND MORTGAGE CAMPANY

The Foreign Minister then took up the questions of evacuation and reparations. He said that these have entered on a new phase, "as a result of recent developments," and that "authoritative British opinion" is supporting the German view that the two problems are separate issues. He said Germany is justified in demanding evacuation of the Rhine at this time and declared that the continuation of foreign troops on German soil is 734 Security Building Fifth and Spring Sts. Phone MUtual 6331 Pasadena:

declared that the continuation of foreign troops on German soil is a handicap to the furtherance of friendly international relations. He found opportunity also to criticise the conduct of the forces of occupation on Armistice Day.

"It was a poor aid," he said, "to the renunciation of the war spirit and the development of peaceful co-operation when Armistice Day was celebrated on German soil by foreign troops who paraded in a manner intended to show the German people that they were vanquished in the World War."

Herr Stresemann followed this up by declaring vehemently that Germany will not consent to pay money in the way of additional reparations as a return for early evacuation of the occupied provinces.

TOLD SENATORS

Aged Tribesmen

Held Detrimental

BAN FRANCIBCO, Nov. 19. (Exclusive)—Charges against the Indian Bureau and the Public Lands Department of the United States Severnment, so serious as to infer that the 18,000 Indians remaining out of 180,000 in 1850 are held in a condition of virtual serfdom, were laid today before a special investigating committee of the United States Benate. The charfes had been anticipated, as the hearings were granted after strenuous representations to Federal authorities by the California Indian Defense association and the Federalian of Women's Clubs.

The Benate committee was told: That action has been instituted which indicates intention to damn the Klamath River despite the rejection of such a proposal by the voters of California.

That Indians have been despoiled of good land and given worthless

nat the Indian Bureau has re-d to provide the necessities of to aged, ill and starving In-

mismanaged persistently.

That Federal authorities have refused to co-operate with county authorities in siding indigents and Federal aid has been refused indians living off their reservations or attempting to support themselves by working for whites.

Mrs. Harry C. Roberts of Piedmont, chairman of the committee on Indian welfare for the Federalion of Women's Clubs, and Mrs. Mary Gist Dornback, known to Klamath Indians as their Joan of Arc, cited to the committee the fling by Mrs. Dornback's father, John C. Gist, a protest with the Land Department against a survey which they declare indicates intention to build a dam across the Klamath River. The survey, they said, includes patented land which Gist is farming as an extension of the Hoopa reservation, and which lies across the river from the reservation. The effect, it is charged will be to include in the reservation land which does not belong to it.

nation-wide, factory-planned, factory mised and completely standardized in acter and quality and assures owners. Hous, prompt, efficient, high-grade at uniformly fair prices.

858
Authorized
Service Stations

Cadillac service must be conveniently available. Today 858 cadillac service stations blanket the country. Cadillac and somers are never far from the kind of service to which they catilled.

satisfaction, service must also be rendered by men who are

more than good motor car mechanics. They must know the car they serve and the standards that govern its manufacture.

The men who man Cadillac-La Salle service stations are all carefully trained by representatives of the Cadillac factory and by the factory's service education plan.

Special tools, designed to perform service work better and in less time, are part of their equipment. More accurate workmanship—faster work—better work results.

Nor is this all. A special crew of factory service men is constantly in the field, traveling from station to station to inspect, instruct and advise.

Thus the Cadillac or La Salle owner, by simply presenting the Service Card given him by the factory on purchase of his car, receives the same efficient service under factory regulation and at prices limited by the factory, wherever he may be. What is the result?

Factory Trained and Supervised

More than 60 per cent of the Cadillacs sold each year are sold to Cadillac owners. Approximately another 20 per cent are delivered to friends of owners through their personal recommendation.

Obviously the answer to this is: Cadillac-La Salle service makes satisfied owners.

La Salle is now priced from \$2295 to \$2875—Cadillac from \$3295 up—all prices f. o. b.
Detroit. Cadillac-La Salle dealers welcome business on the General Motors Deferred

(With Stock Purchase Warrants)

Jacques Vinmont, Chairman of the Board of Directors of Pacific Western Oil Company, summarizes his let-ter to us as follows:

Properties: Pacific Western Oil Company has been organized under the laws of Delaware to acquire substantially all of the oil producing properties, and the greater portion of the undeveloped oil properties, in California, owned, leased or controlled by Petroleum Securities Company, a corporation all of the stock of which is owned by Edward L. Doheny and members of his family.

owned by Edward L. Doneny and memoers of his family.

The properties comprise a total of about 40,000 acres, of which approximately \$1,000 acres are owned in fee, 5,450 acres are held under lease (of which \$57 acres are held jointly with others). 728 acres are controlled through ownership of mineral rights or otherwise, and \$1,00 acres are held under U. S. Government permits or leases which will be acquired subject to Governmental consent (which, according to counsel, is usually obtained in dus course), together with certain production equipment, materials and supplies, and gasoline absorption plants located on the properties. Of the acreage held in fee or controlled, a lease has been granted on a royalty basis on about 10,255 acres. Production is being obtained at present from Ventura Avenue, Inglewood, Huntington Beach, Alamitos Heights (Seal Beach), Torrance, Los Alamos and East Coyote Districts. The production for October, 1928, from the properties being acquired averaged over 16,000 barrels daily after deducting production due joint owners; and after deducting production, in addition to the present production, the management has shut in approximately 4,000 barrels daily. 8 wells are now being drilled, all of which are in the prolific Ventura Avenue field.

Robert B. Moran, independent engineer, estimates total recoversible, cill reservers of averagements.

Robert B. Moran, independent engineer, estimates total recoverable oil reserves of approximately 56,300,000 barrels from present proven acreage in the properties being acquired, without taking into consideration potential recovery from undeveloped

acreage. Contracts: Pacific Western Oil Company will presently enter into a contract extending until 1933 with Richfield Oil Company of California, under which the latter will agree to purchase the entire crude oil production of substantially all the properties above described up to 20,000 barrels daily at prevailing posted market prices, and has the first call at such prices on any additional production in excess of 20,000 barrels daily from such properties and on all production from proper-

Valuation
The physical properties to be acquired by Pacific Western Oil Robert B. Moran, independent engineer, at over 1843,000,000. On the beats of this accounted with the beats of the beats of the beats of this accounted with the beats of the beats \$43,000,000. On the basis of this appraised valua-tion and including working capital of about \$1,750,000, to be provided out of current financing, total assets of Pacific Western Oil Company will amount to over \$44,750,000, equivalent to \$2,800 per \$1,000 Debenture. Such assets will be carried on the books at a valuation of about \$27,500,000.

Purpose

of Issue:
capital stock of Pacific Western Oil
Corporation, are being issued in connection with the acquisition of the properties and
to provide working capital for the Company.

Debentures: These Debentures will be the direct obligation of Pacific Western Oil Company and will constitute its sole funded debt. The Company has no Preferred Stock authorised or outstanding and all of its Capital Stock will be owned by Pacific Western Oil Corporation. a holding company Pacific Western Oil Corporation will have an authorised capitalisation of 2,000,000 shares of capital stock, no par value, of which 1,000,000 shares will be presently outstanding and 232,500 shares will be reserved for the exercise of stock purchase warrants to be attached to these Debentures.

Management: Jacques Vinmont, formerly President of the California Petroleum Company, is Chairman of the Board of Pacific Western Oil Company and of Pacific Western Oil Corporation William C. McDuffie, formerly in charge of crude oil production for the Royal Dutch-Shell Group, will be President of both Companies. The executives will hold a substantial interest in the capital stock of Pacific Western Oil Corporation.

We offer these Debantures when, as and if issued and received by us subject to the approval by Mesers. Sullivan & Cromwell, counsel for the Company, and Mesers. Cracath, deGersdorf, Swains & Wood, counsel for the Bankers, of all legal proceedings incident to the issuence of the Debantures and warrants. Mesers. Loob, Walker and Loob of Los Angeles are acting as California counsel for the Bankers. It is expected that delivery in the first instance will be made on or about November 27, 1928, in the form of temporary Debentures or Interim Certificates.

STANDARD OILS

Where Are the REAL Opportunities?

Today it may be that copper stocks, or the oils, are advancing. Fro-quently there is no apparent rea-son. And, again, sourtimes one stock in a group will have a nustain-ed advance while the others lag behind. Why?

There Is Always a Reason

There is nothing mysterious about this. It is simply a statement of fact. New opportunities are constantly arising. Frequently they can be foreseen. Our organization was established 25 years ago and has since been built up with this and in view . . to locate investment opportunities through constant trained and uply and research.

What Opportunities Exist NOW?

LOS ANGELES EXCHANGE

Records Fall as Lower-Priced Oil Shares Feature Local Trading

Lower-priced oil shares were carried upward on a wave of speculative

Lower-priced oil shares were carried upward on a wave of speculative enthusiasm as irregularity developed in the general list on resumption of the week's trading yesterday on the Los Angeles Stock Exchange Bolsa Chica, Occidental, Buckeye, Mt. Diable and United States Royalties all figured prominently in the advance that swept away several record prices. The major oils were spotty, with the number of losses about equal to the number of gains. Activity was well spread throughout the bank list, which held firm.

Buckeye Union participating preferred opened at 85 cents and advanced 50 cents, or about 60 per cent of its market value, to a new record high and close at 125. Action of the stock is attributed to a report that negotiations are under way for the drilling to the deeper ands, of its five wells in the Santa Pe Springs district.

Bolsa Chica, A, following completion of a 5000-barrel well at Ventura, soared 75 cents to a new peak at 3.95 and ended at 3.80. Mt. Disble, on strength of its favorable lease holdings in the Midway field jumped 20 cents to 3.10. Occidental Petroleum, which under a development contract with Universal, is also favorably affected by operations at Santa Pe Springs, struck a new lost 11-4 to 128. California ment contract with Universal, is also favorably affected by operations at Santa Pe Springs, struck a new lost of 124. Transfavorable favorably affected by operations at Santa Pe Springs, struck a new lost 11-4 to 128. California ment contract with Universal, is also favorably affected by operations at Santa Pe Springs, struck a new lost of 124. Transfavorable and the structure of the past week, excepting Banettaly, which lost 1 1-4 to 128. California ment contract with Universal, is also favorably affected by operations at Santa Pe Springs, struck a new lost of 124. Transfavorable and 124. Transf

LOS ANGELES CURB

Aside from one or two spectacular exceptions general weakness characterized the week's opening session yesterday on the Los Angeles Curb Exchange. Selling of oil and industrials forced the level of prices down i to 3 points. However, the offerings were well absorbed on the whole and one of the most active sessions in the history of the curb was recorded.

Buckeys Union, in line with the preferred stock on the parent board, was one of the exceptiona. This issue jumped 71% cenis to a new all-store daylong at the preferred stock on the parent board, was one of the exceptiona. This issue jumped 71% cenis to a new all-store daylong at the preferred stock on the parent board, was one of the exceptiona. This issue jumped 71% cenis to a new all-store daylong at the preferred stock on the parent board, was one of the exceptiona. This issue jumped 71% cenis to a new all-store daylong at the preferred stock on the larger market, and Claude Neon Electrical Products. I point to 44%. Bank of America continued to advance and added 3 points to finish at 190.

FARMERS NATIONAL MORTGAGE INSTITUTE (Kisbirtokosok Orszagos Foldhitelintezete)

7% Hungarian Land Mortgage Sinking Fund Gold Bonds of 1928

Dated October 1, 1928

orized \$5,000,000. To be presently outstanding, not more than \$4,000,000, of which \$500,000 have been ing in Hungary. Interest payable April I gad October I. Coupes bends in desemination of \$1,000, reported in the principal and interest payable at the principal office of Guaranty Trust Company of New York, in gald one of America of or equal to the present standard of weight and facesses, without deduction for any present or a Redesemble on a whole or in part on any interest date at 100 and accrued interest. Guaranty Trust Company Paying Agent, Control Corporation of Banking Companies, Budapost, Final Agent.

Sinking Fund, as described below, operating by semi-annual drawing by lot at 100 and interest, sufficient to redeem entire issue by maturity

The following information has been summarized from the letter of His Excellency, Count in Hadik, President of the Institute, and is subject to the more complete information such therein:

Government Control

The Formers National Mortgage Institute was founded in 1879 under a Special Act of the Kingdom of Hun-gary, for the primary purpose of providing a credit me-dium for the small farmer.

The Hungarian State owns 94% of the Institute's present outstanding shares and its participation cannot be withdrawn. The Institute is operated under governmental supervision through a permanent Commissioner appointed by the Finance Minister. The election of its President and Vice-President is subject to ratification by the head of the State and its Articles of Association cannot be amended without governmental approval.

Operation

The Bonds will be the direct obligation of the Farmers National Mortgage Institute. The Institute will at all times maintain sub-obligations secured by first mortgages on productive agricultural property situated within the Kingdom of Hungary in a principal amount at least equal to the principal amount of the Bonds of this is use outstanding plus the amount of all the other outstanding Land Mortgage Bonds of the Institute.

Land Mortgage Bonds of the Institute custof of January 1, 1925, all sub-obligations and good of funds created after such date will be posted as man-for all such Bonds outstanding.

Sinking Fund

A sinking fund is provided beginning October I and operating semi-anually sufficient to string issue by maturity through redemption by in a interest. If Bonds are cancelled or redement tion to sinking fund requirements, subsequent coolingations will be correspondingly manual.

Agricultural Situation in Hu

Hungarian Finances

An Architectural Masterpiece

at This impression of Bel-Air was written by a man whose business because association with high class real estate divisions

"In this day and age when business is clicking along on high, one seldom has time for reflection during the working day. However, I had such an enjoyable experience yesterday that I wanted to take time to tell you of a very happy half-hour that I spent in Bel-Air.

"Leaving the hubbub of down town and maintaining my rights in traffic demanded all my attention, but when I turned off Beverly Boulevard a very enjoyable transition took place, and I thought to myself, "this is one time when work is a pleasure because the reposing quietude and beauty of Bel-Air render a charm that cannot be shaken off."

"My business demands that I be thoroughly acquainted with all of the different subdivision developments in and near Los Angeles and you may be pleased to know that I believe the community of Bel-Air has "it" to a greater degree than any other.

"I mention this simply because I want you to know what a striking impression the Bel-Air development has made on me, as undoubtedly it does on all others who appreciate the beauty of Nature.

"There is something about Bel-Air's Oaks and Sycamores, its rempting golf course, its wonderful riding arena and its artistically interesting homes that casts a spell on an Angeleno like the charm Los Angeles has for an Easterner. In gazing over the gentle knolls of Bel-Air one is so indelibly

impressed that he cannot help but pass on his reactions. "It is my opinion that there has been created in Bel-Air not just another subdivision, but an architectural masterpiece."

COMPLETE NEW YORK STOCK EXCHANGE REPORT

throughout the seasion, although banks called \$10,000,000 in loans. The day brought an assortiment of bullish news. Du Pont declared the expected extra dividend of \$4.75 and recommended a 3%-for-one stock split, and Kennecott advanced its annual dividend rate for the second consecutive quarter, raising it to an \$5 basis from a \$6 basis.

The price of stock exchange seats approached the \$500,000 mark in response to the record volume of commission business and talk of 10,000,000 share days in the future. Three sales were arranged, one at \$480,000 the previous high figure, then one at \$490,000, and another at \$490,000. The exchange reported an increase in the ratio of member borrowings to the total value of listed securities for October which was generally regarded as moderate, and disclosed that the average value per share has increased \$6 cents to \$33.25 during the month.

ANACONDA CLIMBS

In the coppers Anaconda jumped more than 5 points to a new peak, and Magma and Chile achieved new high ground. Kennecott lost 2 points in the traditional "selling on the good news" of the higher dividend rate. Amerada led the oils with a 3-point jump to a new top, while Transcontinental mounted to a new high at 13½ in heavy buying. Mexican Seaboard fell 8 points, but recovered 5 points of its loss.

New Haven was a conspicuous strong point in the rails, climbing nearly 4 points to 72 1-4, the highest price it has achieved in about twelve years. Canadian Pacific also went ahead nearly 4 points.

Bethlehem Steel fell 2 points, then rose nearly 6 to a new peak at 34%. Steels generally yielded to profit taking, however, United States Steel and Vanadium losing about a point each. Motors were also inclined to heaviness. General Motors again lost about a point, and Chrysler closed 1½ points lower. Packard broke in territory, then eased.

National Tea closed about 8 points

Rancho Santa Fe Owned by the Santa Fe Land Improvement Company

Solves at least seven perplexing problems of the homeseeker, namely:

- 1. That of building a home where one can be sure that no unsightly thing will rise to plague or to depreciate investment. (Restrictions on the use of land insure this.)
- That of investing soundly and safely the money necessary to build the home of one's dream and thereby adding to one's estate constantly as the years go by. (The extraordinarily reasonable prices asked for land here, and the experience of those who have already bought of the Rancho, make this plain to the buyer.)
- That of living in the country and yet near enough conveniently to enjoy the city as often as desired. (Four hours drive to Los Angeles; one hours drive to San Diego.)
- That of finding a climate permitting outdoor life the year around, where health abounds and where it is neither too hot nor too cold and mountain air and sea breeze combine. (Encircling hills on one side and the ocean on the other are the explanation of this.)
- That of having a home in a profusion of plant, flower, and tree growth, sub-tropical and temperate, either ornamental or income producing. (Depending on whether a small or large estate is bought. Both kinds are available.)
- That of being near recreationa facilities and at the same time far from the crowd. (Mountains, Lake Hodges, and its boating and fishing. The sea with its bathing and fishing, are all near by; and an all grass golf course is now being constructed on the Rancho.)
- That of living among congenial neighbors, each so busy with his or her own affairs, that he or she has no time for yours. (The character of those who live on the Rancho accounts for this.)

If any or all of these problems are yours, follow the route shown on the accompanying map and find its or their solution.

Use this coupon for literature to be mailed to you.

NOTAS LOCALES

Des Cémices que se Suicidan Aspirande Gas

Dos pobres cómicos de la legua, Art Waish de 35 años, que caracterizaba papeles de negro, y su mujer, Ester, de 32 años, que aparecia en los programas bajo el nombre de Ester Admire, fueron encontrados muertos ayer, asfixiados por el gas, en el apartamiento que ocupaban en la calle Segunda Ceste, 421.

Noche tras noche trabajaban en los tablados de pueblo estos cómicos humildes, haciendo reir a los campesinos con sus balles, canciones y chistes; y a pesar de la dura existencia que llevaban, siempre a saito de mata, y siempre alojándose en cuartos baratos de hoteles de pueblo, brillaba para ellos la esperansa de que algún dia habria de soureiries la fortuna, y verian sus nombres escritos en letras de luces sobre la fachada de algún teatro metropolitano.

Hace tres semanas que la flebre tifoidea les arrebató a los Walsh sus dos hijos en Detrott. Vinieron huego a ésta, donde Art consiguió trabajar en un teatrito de barrio, en papeles cómicos de negro. Pero su esposa enfermó de gripe, y Art perdió el sábado su contreta.

Desesperada la pareja de humildes artistas, acostose el marido al lado de la mujer en la cama de su habitación, dejando abierta una llava de gas. Cuando la policía entro en la pieza, los Walsh eran ya cadáveres. Charlas Infantiles Para Chiquilles de Escuela

The battle over the proposed business soning of the Santa Monica Boulevard frontage of Hollywood Cemetery came before the City Council's City Pianning Committee, yesterday afternoon. After hearing both sides of the three-year-old controversy the committee voted to recommend that City Attorney Stephens be asked for a ruling as to the Council's right to sone the frontage.

This action was taken as the result of contentions of the opponents of the soning that the Santa Monica Boulevard frontage for a depth of 100 feet, on which the sense of the Civil Service department of the city will be held to morrow at the police range in Etysian Park to enable those who took the examinations for deputy chile and assistant Chief of Police to qualify as to marksmanship. The average obtained in the scores will be included in the grading of the papers.

Civil-service shooting contests were not necessary in examinations conducted for the lower grades in police work, as most of the men ensage in regular practice and the scores made at such practice were included as part of their examinations as conducted for the lower grades in police work, as most of the men ensage in regular practice and the scores made at such practice were included as part of their examinations of the men ensage in regular practice sand the scores made at such practice were included as part of their examinations of the men ensage in regular practice sand the scores will be included for the lower grades in police work, as most of the men ensage in regular practice sand the scores will be included as part of their examinations of the men ensage in regular practice scores for those who would bold higher office, however, require the holding of a marksmanship contest, as a number of the applicants, it is reported, have had very little pisted practice due to the fact that they hold office positions.

TRAGIC WOMEN

Rebecca West, the British novelist, says American women lead tragic lives. They live in sky-scrapers where they can't keep dogs or bables; and they receive the most adoration when they are bobbed-hair bandits. And they use their wealth to starve themselves into boyish figures.

I think that Becky could have

selves into boyish figures.

I think that Becky could have one at'll farther. The whole idea of living in modern cities is wrong. In California, at least, there is no reason to do so. We strain and struggle to keep up a pace that we secretly hate. The mountains and the deserts beckon us to a life that is absolutely ideal, and we reject it to dive head-first into an ant hill.

Opening of New Enterprise Mr. Carna

DRAMA BOW

girls were not mentioned.

The Norwalk pedagogue asked if public school-teachers have a legal right to inflict corporal punishment on pupils.

The deputy counsel found that the California school laws give teachers the right to suspend or expel pupils who are habitually disobedient. He also held that in the absence of specific regulations on the subject of corporal punishment teachers may use such force as they deem necessary to enforce obedience, provided they act within reason and, according to such rules as may be provided by the school boards for the government of their respective schools.

The opinion of the counsel cites decisions in other States to show that in the absence of law regulating procedure, school boards have the inherent power to decide the question of punishment for pupils.

So, the old rawhide hanging behind the cloakroom door has not been relegated to a dim and misty past—not yet.

NEGIORIOS UNINFORMED
Neighbors could throw little light on how long the men had been in the house. Rush, however, told capt. Linch he had seen cos man around the house and the house of the seen o

All these bids are the results of careful figuring by contractors, and will be profitable to them. It is a disciplination of the low last July, 1927.

Hence the people of the valleys have gotten the low last July, 1927.

Hence the people of the valleys have gotten, and only through the results of their injunction and litigation, the high dam built as cheaply as they could have gotten the low dam. I was very severely the criticised in July last year; in fact, I was charged with disloyalty and treason for something that I was entirely innocent of. My only offense was to have said that it was entirely innocent of. My only offense was to have said that it was improper and illegal to attempt to build a low dam when the people is had voted to build a high dam, and from this charge of treason and disloyalty I was vindicated through the build. The interested people of the valleys who found it necessary to enjoin the building of the low dam, are the contractor who bid such a low price July, 1927, of 32.29 per cubic yard, was crazy, and that the district would pever get such low bids again.

It seems to me now that if these low bidders of July, 1927, were affected the are contractor of the low dam. It was herealded throughout the county that the contractor who bids again.

It seems to me now that if these low bidders of July, 1927, were affected the are contracted to July, 1927, were affected to Appendix and the convention of "shop variety," W. H. Elsenman, secretary of the American Society for Steel

Botthern California's bathing beauties, motion-picture vamps and mountain sirens yesterday were placed in the discard by planners of the Western Metal Congress. The convention is expected to attract 5000 metal authorities here from January 14 to 18.

Instead of conducting delegates on tours of the beaches, studios and mountains, it was decided to make the convention strictly a business affair by taking the visitors for trips to the city's numerous industrial plants and near-by oil fields.

It will be a convention of "shop talk," mostly of the "machine-shop variety," W. H. Eisenman, secretary of the American Society for Steel Treating said. Sessions will be held in Shrine Auditorium and the Biltmore. As a result of the decision, it is said, word of Los Angeles' great industrial development will be carried back to every State. A First Page of Mrs. Karl Remaided throughout the county that the contractor who bit such as low the contract of the contractor who bit such as low the contract of the contractor who bit such as low the contractor who bit such as low the contract of the contractor who bit such as low the contractor who bit such as low the contract of the contractor who bit such as low the contractor who bit such as

DAILY FOUNDER DEC. 4. 1881—1871 YEAR
DAILY FOUNDER DEC. 4. 1881—1871 YEAR
Such aid to the formation of co-operative marketing of agricultural products. The president rightly sees here a possible solution of some of the farmer's difficulties, and evinces a readiness, as he has in the past, to have government give such aid to the formation of co-operatives as it can.

such aid to the formation of co-opera-tives as it can.

The President did not attempt to dis-cuss all phases of this problem, but he stated it briefly and succinctly. As the President saw it, the farmer fails as a marketer when he attempts to sell in the wrong place or at the wrong time, and the co-operative association succeeds be-cause it is able to sell in the right place at the right time through its ability to

wrong place of at the wrong time, and the co-operative association succeeds because it is able to sell in the right place at the right time through its ability to obtain better information than is available to any individual producer.

There is no doubt of the success of well-managed co-operatives whose members stick together regardless of conditions. This is proved both by the successes and the failures in the co-operative field. The outstanding successes have been the California Fruit Growers' Exchange and the California Walnut Growers' Association, both of which happen to be managed by G. C. Teague of Santa Paula; but Mr. Teague's management, able as it is, does not account for the whole of the success. Other co-operatives have been ably managed, but have failed.

The principal factor, so far as analysis can show it, is that these growers are intelligent men who believe in the co-operative system and will keep their bargains with their associations under all circumstances, including temporary diadvantage to themselves, realising that in the long run they gain by so doing. Also, they form a fairly compact group of one nationality.

In the general agricultural field, there is a heterogeneous mass of producers of all grades of intelligence and ability, widely scattered and of many nationalities. It is evident that the forming of a successful co-operative among them is one of great difficulty; that it will require much campaigning and education; that it can never hope to dominate the market as the citrus and walnut associations do, because there will be a larger proportion of independent producers, and that hence its usefulness will be relative.

But despite these objections, the prob-

maginations.

THE STOCK MARKET

THE BIG DAY

With a transfer of over 6,700,000 shares of stock in a single day it would almost seem that the New York Exchange could use steam shovels in transacting its business. If these shares were actually handled they would represent more than 100,000 pounds, net weight. It might take several freight cars to haul them away from the street. This is what they call big business with a capital whoopee.

I Activity which can only be described as crasy has latterly taken possession of the stock market, and in a wild rush on the part of the public to purchase stocks, many issues which, in the judgment of the experienced, were already selling above their value and reasonable prospects, have been pushed to new high levels. Optimism and expansion would be natural results of the clection of Hoover, but the present market cannot be explained by any-devoted to the "older boy problem" adthe judgment of the experienced, were at laready selling above their value and reasonable prospects, have been pushed to new high levels. Optimism and expansion would be natural results of the election of Hoover, but the present market cannot be explained by anything so mild as optimism. It has all the earmarks of a financial spree, and it is a safe guess that there will be a headache to follow.

This is not to be construed as advice to anybody to "sell short." Market conditions now are dangerous both for bulls and for bears. The shift to a downward trend is apt to come suddenly when just the right amount of overexpansion has been attained, and this depends on so many factors that no man can know them all.

There was similar wild speculation in bank stocks a few months ago, and what happened to the speculators is history. The victims of that crash are not, it is safe to say, in the present market; they have not had time to grow a new crop of fiece. Those who sit tight at present will relate the first at theirs.

In the judgment of the experienced, were and surfacts there were not sufficient funds available.

For instance, the maternity homes relief because there were not sufficient funds available.

For instance, the maternity homes and were compelled to turn away 145 more. One institution devoted to the "older boy problem" admitted 192 and was obliged 29 refuse another index as as a seguess. Scores of the aged to turn away 145 more. One institution devoted to the "older boy problem" admitted 192 and was obliged 29 refuse another index to anybody to "sell short." Market conditions now are dangerous both for bulls are the first the results as a seguess. Scores of the aged to turn away 145 more. Beven years ago Bettinghouse of Hollywood, for example.

Beven years ago Bettinghouse got the idea of running a sort of private school bus. He saw that many wealthy people who sent their children to private schools would appreciate having them "personally conducted." by safe, careful drivers who would pick them up at the house door, deliver them at the school door, bring them to and from luncheon and deliver them at home evenings. So Bettinghouse went into business. Not by buying half a dosen expensive cars, or big busses, but by lining up the right kind of semi-retired men, owning good cars, who would be glad to earn from \$5 to \$10 a day with them for about three hours work. Then he made contracts with customers — motion-picture producers and actors and others who couldn't always find time to see their children to school. Now he operates ten cars, getting a percentage on the earnings of each car, as the boos barber does on the earnings of the other barbers, and makes a neat net profit of about \$30 a day.

How many of us, placed as Betting-

and makes a state of us, placed as Betting-house was placed, would have looked around despairingly and sighed that there wasn't a thing for us to do in this doggoned town!

Lee: "Crooks are Hard Hit in Nightstick," says a Times headline. What we want, though, is for more of 'em to be hard hit by nightsticks.—H.H.

calls, and we may expect a steadily increasing flow of European travel to America." cross between Midas and Simon Legree. They don't grasp the idea of a disinterested benevolence. They fall to imagine an amiable altruism as the upstanding trait of our Uncle. It will be the purpose of our President-elect to carry the gospel of good will to these peoples and to convince them that the Pan-American Union is a clearinghouse of peace and amity. We are big, but we are not bullying. We ask only that all these governamity. We are hig, but we are not builying. We ask only that all these governments and peoples move up in unison.
If we have prosperity we wish to spread
it as far as possible.

The Assessor's Problem

LOS ANOELES, Nov. 3.—(To
the Editor of The Times:) I
have a piece of income property
in the city and have owned it for
over five years. The buildings
have depreciated on account of
being five years old and the
revenue has decreased 40 per
cent so that it will not earn
even 5 per cent on the investment and this piece of property
would not bring on the market
70 per cent of the amount paid
for it, but during the last five
years the taxes have increased
50 per cent and on a vacant lot
the taxes have doubled in the
last five years and the property
could not be sold today for the
amount paid for it.

Will some wise men who know
politics better than I do please
explain where I have been benefited, as I cannot see it and
there are thousands in this fair
city who have had the same experience? If we ever boost our

me JOHN DAVIDSON.

"See America First" cry is, we believe, an idea borrowed from the vaudevillians who unfurl an American flag as their act closes. That is, it is an effort to stimulate trade through an appeal to patriotism, and lits more earnest supporters are American hotel and resort managers. Once they got to digging into it, however, they found so many good reasons why Americana should see their own country first that they have done good to everybody else as well as to themselves. The increase in motor touring alone is assurance that Americans will see their own country within the next few years as they never have seen it before. Mother Bear and Cube
SANTA BARBARA, Nov. 16.—
(To the Editor of The Times:) I have just received a copy of your paper with article, "Poor Old Bruin." Won't you keep up the good work of saving our California bears? They are as much a special species as our redwoods. It is not true that the bears get protection that belong to the national parks. Those are the victims, as in November they go back into the mountains to hibernate and bear their young, and being accustomed to being petied by tourists and fed with sugar, etc., they come out when a hunter comes and are the easiest of prey. I have known even women to boast that they shot them. I have seen in the last few months one woman with a bear-skin coat with two baby cubs for collar, that she had killed.

HELEN C. SEXTON. But Jones is convinced that foreign travel also does great good to Americans and to America. For one reason, every American traveler not only sees the world, but tells it, and that telling has interested all the rest of the world in our country. "I have heard many an Englishman say he would much rather visit California than India or Japan," Jones says. "Throughout Europe the mere name of California strings a suggesbrings a suggestion of romance.
There's hardly a young person of education in Europe today who doesn't dream of visiting California, just as our young people dream of visiting Europe. Already Europe is beginning to return our calls and we may expect a steadily

HELEN C. SEXTON.

Vigitant Guardians

LOS ANGELES, Nov. 16.—[To the Editor of The Times.] The last arrest of Callie Grimes on another morals charge is an additional evidence of the quality of brains that function in our police department, Among the thousands of assignations carried on in the lodging-houses of the city en that night the vigilant guardians of her morals discovered only that of the incautious Callie. Of course we are not expected to believe that the department wishes to discredit Callie in order to help their brother officers to get away with one infamy after another. Los Angeles, with her rapid growth and mighty economic strides, is becoming ripe for the same kind of police and gangster rule that blighted Chicago, and, lacking experience to contend with it, all we can do is sit back and "holler," as, bewildered, we see one dirty mess after another in various departments uncovered and then whitewashed.

EDWARD J. AKERS.

Taxing Necessities? LOS ANGELES, Nov. 16.—(To the Editor of The Times:) About a year ago the Treasury est file" and notices as About a year ago the Treasury Department announced the removal of taxes on certain priced theater tickets. Has the dear public received any benefit from same? Not so you can notice it. Fifty-cent tickets still cost 50 cents, and the theatrical magnate pockets the extra nickel. Under the circumstances I think it is very unfair to reduce taxes on amusements and collect taxes on certain necessities of life which is still being done.

HARRIET WEIKAL

First Publicity Library Perhaps the real pioneer of public libraries was Sardanapalus, the Assyrian, who, six and a half centuries before Christian era, collected at Nineveh 10,000 works, written in cuneiform on tablets of clay, for all to read.

Two local fishermen who were re-counting their experiences on a trout stream to a crowd were receiving much applause when an interested listener dryly remarked: "Don't cheer, boys, the poor devils are ly-ing."—[Ban Francisco Chronicle,

HARRIET WEIKAL.

Spring violate have been made to
bloom in the summer simply by
cutting down their ration of daylight to the length of a spring day.
The extra heat of summer had no
effect on the growth of the plant.
In this controlling of plant growth,
artificial light has the same effect
as sunlight or Che light of a greenhouse, and twelve hours of light
(whether natural of artificial) is
"summertime" for the plants, and
six hours' light "winler."
An experiment conducted with
trises is given as an example of the
effect of light rationing on plants.
Two lots of irses were sown in
late October; the first were giveneighteen hours of light per day,
whilst the others (kept in the same
temperature) received only the light
provided by natura. The first lot
reached normal size very quickly,
and actually bloomed on Christman
Day, but the others were dormania
as late as the following February.

ANDERSON AND BRUIN GRIDDERS DRILL HARD FOR OREGON GAME

BY FRANK ROCHE

If the Oregon Webfoots expect to meet a California Bruin football team with its claws clipped close when they tangle at the Colliseum. Fleming got a nice little workout in the La Verne game last flaturday, and he showed there that he was a surprise in store for them, judging from the way the local boys are shaping up in their practice work at Moore Field. Bill Spaulding, head coach of the U.C.L.A. squad, drove his players through a two-hour drill yesterday that last the boys almost dead on their feet when they finally hit the showen.

The Bruins know that the Webfoots expect to meet a set-up when they are fighting mad about it.

Yesterday the varsity serimmaged with the scrubs for the better part of an hour and a half. The scrubs, with Assistant Coach A. J. Surrsenegger directing them in Oregon formations, bewled into the varsity with more sip than they have shown all season. The varsity, with Capt. Jee Fleming and Earl Fields, the pile driving full-back, carrying the ball, bounced into the scrubs time and time again for nest galms.

Freming seems to be fully recovered from his carry season injuries, and he may show the fans some of the stuff that made him such a here

REARS PREPARE.

in Neimle and Curidico, two good champlomally which it has not beld since 1885, and back turber than that, in 1916. Here champlomathy would prove a "percentage victory," however, with one more game played Blan Pennena.

Jack Schweizer, Bud Collier, Ward Ethrelier, and Glenn Ronelle, the Collier and Moon Mullins, and two other fast-moving halfbacks in Chretigary and Ethrelier, and Glenn Ronelle, the Collier and Schweizer, Bud Collier, Ward Ethrelier, and Glenn Ronelle, the Collier and Schweizer, Bud Collier, Ward Ethrelier, and Glenn Ronelle, the Collier and Schweizer, Bud Collier, Ward In the Schweizer, Bud Collier, Bud Collier, Ward In the Schweizer, Bud Collier, Bud Collier, Bud Collier, Bud Collier, Bud Collier, Bud Collier, Bud Collier,

stantly on guard, as his opponents never know whether he is going to run with the ball or throw it. Lom scored against Oregon and completely fooled the Webfoots by a long end run from punt formation. It was Lom's thirty-one-yard pass to Norton that defeated St. Mary's early in October and against Santa Clara he acored one of his team's three touchdowns on a forty-two-yard gallop. Bear partisans are asserting that Benny Lom is as great as Michigan's great all-around player of a few years back, Benny Friedman.

for First Place in LINCOLN, MANUAL MAY PLAY

ations to have the Manual Arts and Lincoln elevens play the preliminary game to the Oregon-U.C.L.A. struggle at the Collseum Thanksgiving Day are expected to come to a climax toched one way or another. The seven viceprincipals of the City League will meet this afternoon to vote on whether permission will be granted Manual and Lincoln to play. Permission is expected to be given the schools and then the vice-principals of Lincoln and Manual will get together with Steve Cunningham, Bruin graduate manager, to try and iron out final details. Lincoln and Manual are at present tied with three victories

THANKSGIVING PRELIMINARY

HE California Bears haven't won a football game from Stanford since they dedicated their new Memorial Stadium back in 1923, so it's little wonder that the old grads are

hoping for the best next Saturday They want to see another victory put over by the Bears in the big bowl in Strawberry Canyon, where the last of the so-called Andy Smith "wonder teams" won a hard-fought 9to-0 game five years ago. In 1924 there was a hectic 20-20

tie, and since then it has been a string of Stanford wins.

Doping the outcome of this year's game is about as silly as trying to pick a winner when U.S.C. and Stanford come together. Psychologically, the advantage should be California's with three years of reverses and an unsullied record this season. On the other hand Stanford wants to take out the Trojan setback on somebody, and there's nobody left but California and Army.

Stanford wants to beat the Army, but nothing is sweeter to a son of the Stanford Red than victory over the Bears. So the psychology is a toss-up. It depends on which coach can gear his men highest. Here the odds are in favor of Nibs Price, the California coach. Warner is made at Stanford. Price is on the upgrade at California. His boys can make him secure with the alumni by beating Stanford. They know it and they will fight to the last ditch for him.

California is weaker than Stanford, but defensively is SAN GABRIEL WIND-UP offensively, California is weater than ball to faltering on the goal line. The Bear's have Lom, the greatest kicker on the Coast. There are other points in favor of each team, but nothing outstanding enough to make either a big favorite. Nothing but the run of the play—and the breaks—will decide the game.

Coach Hobbs Adams's Monrovia Wildcats, wind up the San Gabriel to Wildcats, wind u

TWO UP FOR STEFFEN

N HIS report of the Carnegie Tech-Notre Dame game Aubrey Devine says the Skibos violated every code of orthodox football and got away with everything except a run from punt formation in the shadow of their own goal posts.

This cost the Skibos one touchdown when Harpster fumbled. Other wise the Carnegie lads did as they pleased—forward passed on the firs down in enemy territory, in their own territory, anywhere they happened to feel like it.

They did everything differently while Notre Dame was playing—or trying to play—orthodox football. And for the manner in which Carnegle Tech carried on you must hand Judge Wally Steffen, the Skibos' coach, full credit.

No team as big and powerful and well drilled, with an unbeaten cord, would have violated all the ethics of sound football unless it

had been instructed to play that way.

Knute Rockne has always been given credit for being one of the original sty foxes of the football world, but it looks to me as if the former Chicago quarterback star of two decades ago had slipped one over on the sage of South Bend.

TOUGH SCHEDULE

O P COURSE, the Army game must have taken its toil of the Irish.

No team can play two exceptionally tough games in a row on top No team can play two exceptionary tough games in a row on top of an unusually strengous season and expect to get away with it.

Notre Dame, geared to beat the Army, had a natural reaction—a physical letdown whether it was realized or not.

But the Irish will have two weeks in which to get over this be-

rematch with Jack Willis at the Olympic tonight.

The Baron wasn't here when Anderson beat Ace Hudkins, but he has been capitalising on it in all his speeches from coast to coast. The Baron is fuller of speeches than Senator "Wild Bill" Lyons. The only difference between them is that the boys walk out on

threats in this country. The boxer does mot speak much English. His brother, Al, acts as manager and mitropreter.

The Yearlings won the "Little Big Three" title by playing a sooreless the with California, and defeating Stanford, which won from the Benr Cubs.

The frosh who won numerals are G. Arbeihide, halfback, Huntington. He canceled a planned bout with Bushy Graham in Milwaukee in order to accept the date with Francis berg.

ARE RATED HIGH Hambelm, Harold Hammanek, half, Lomits; Robert Hall, tackle, Fort Worth; Richard Holloway, guard, Van Nuys; Howard Joelin, end, Phoenix; Anthony Jurich, end, Santa Monica; Dixon Kelley, center, Glendale; Tom Malloway, guard, Van Nuys; Howard Joelin, end, Phoenix; Anthony Jurich, end, Santa Monica; Dixon Kelley, center, Glendale; James Musick, foll, Santa Ana; Ernest Pinckert, quarter, Glendale; San Bernardino; Raymond von Rosenberg, tackle, Manual Arts; Cell Schnelle, half and end, Fremont; Gaitus Shaver, quarter, Covina; Clarence Shefiler, full, Inglewood; Harold Snyder, guard, Lamar, Colo; Barry Stephens, half, Polyshor, and Color, Barry Ste

A YEAR OF PROGRESS

Ford was introduced. At this anniversary, it is interesting to the record of the months passed and see what has been complished.

OUP'S

Since December 2, 1927, nearly 10,000 new Ford cars have been 11. Production has been graduly increased from a few hundred a 10 6000 a day. We expect to 122,000,000 automobiles in 1929. These are impressive figures. But 19 are only that. Figures of them-

the big thing is that the new has delivered a service beyond expectations. The promise of a rago is now an accomplished fact.

New Ford is the expression of an ideal

mourselves as charged with makthe best automobile it is posthe to make at a low price. That is mission. We have done it for the than twenty years. The public meets us to keep on doing it.

By C. A.

UPSTART!

that obligation includes good ign as well as good materials. It hold it our duty to permit thing to stand in the way of progret we do not make changes ply for the sake of making them. It must be demonstrated that the seems like an improvement in any is an improvement in practice.

new Ford has made a high place itself because it is built on sound imples. There is nothing of an priment about it.

the whole effort has been toward plicity—to give you outstandervice with as little machinery louble. That is where expericounts. Built into the new Ford is everything we have learned in the making of fifteen million automobiles.

The motor has made a remarkable record

Take the motor. It has made a remarkable record because it combines every essential feature of good performance—power, acceleration, amoothness, speed, reliability, economy and long life.

Mot just acceleration. Not just smoothness. Not just speed. But the most of all of these features that can be built into a low-priced car without cutting corners or sacrificing quality anywhere along the line.

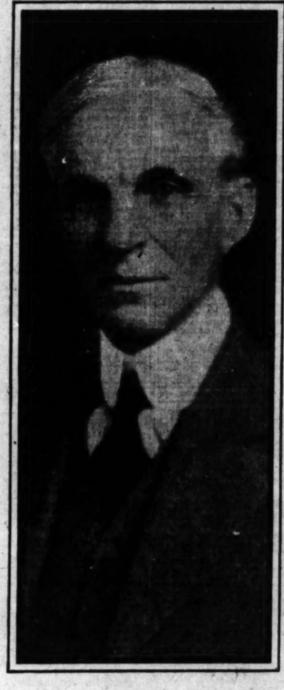

We were building more than a motor when we did this. We were fulfilling the public's trust in us to make the best relection for their use. Had any other type been better, we would have chosen that.

Value of simplicity shown in performance

Daily, in the performance of the new Ford, you can see the value of its sound simplicity of design, its balance, the care with which it is made, and the quality that has been put into it.

It will do 55 to 65 miles an hour, which is fast enough for anyone. You know how quickly it accelerates. You have seen how it climbs the hills on high. If you drive a new Ford you know its economy of operation and low cost of up-keep.

From every part of the world come reports of its reliability and endurance. Many of the new Fords have been driven 50,000 miles in

the past year. Some more than 100,000 miles. There is no telling how far they will go. The average life of the Model T was seven years. We believe this new car will do even better.

THE engine is the heart of the motor car, of course. Yet there are other features almost as important. We refer particularly to the safety of the fully enclosed six-brake system of the new Ford. To its really remarkable smoothness and stability at all speeds and its easy-riding comfort. To the beauty of its lines and colors. To the ease of control. To the Triplex shatter-proof glass windshield. To the electric welding that makes it such a strong and sturdy car.

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution to the progress and prosperity, of the country, and to the daily welfare of millions of people."

Henry Ford

In a word, the quality of the new. Ford goes clear through. Nothing has been done for show. No one part has been given undue prominence at the expense of another.

Constantly making a better automobile

The new Ford was a good car when it was first introduced. We made sure of that before we asked you to buy it. It is a better car today.

Constantly we are finding new and better ways of doing things. As soon as we are sure of them we put them into the car. There is no such thing as a yearly model. Why should there be? As we make improvements, they are so planned that owners of previously built cars may take immediate advantage of them.

EVERYTHING that has been done has been done with one purpose—to bring the benefits of modern, economical transportation to all the people.

Our mission is to make the best automobile that can be made to sell at a low price. In ever-increasing measure, the new Ford is the expression of that ideal.

A DOCTOR'S ADVICE:

GO LIGHT ON LAXATIVES

Everyone needs a laxative AT TIMES. But there's no need for making it a HABIT. If you have the habif, you can be rid of it in thirty slays. Or less! And this is how:

The next time you go to take any strong cathartic—don't. Instead, take a little oascara. That's not a vicious drug, but the bark of a tree. The laxative made with cascara couldn't barm a .- and. It is, in fact, the one cathartic many physicians will approve for children. Gentle as it is, cancerizing is just as thorough in cleansing the colon as the more powerful purges that actually sap a percon's strength.

Proof that there's no habit from cascara begins the very day after taking. Instead of being clogged

THEY HAVE NO BUSINESS PLAYIN IN THE WINGS

USICIANS withdrawn...not a part of the ensemble..."playing in the wings"...bring them out on the stage.

You want to hear all the players. The Splitdeef Radio, with the "250" HEAVY DUTY Tube, will bring them out to their rightful places. Notes formerly lost or distorted - so indistinct and blurred that they were hardly heard at all-are now clear and melodious.

For this HEAVY DUTY Tube has seven times more power to play each note without distortion Softly-if you wish it so-the Splitdorf sends out the harmonies. Brilliantly-if you wish it so-the Splitdorf accentuates each tone, and reproduces them all exactly as they are being played.

You may appreciate all music with a Splitters Ask your dealer to bring a set to your home where you can compare it with your own radio. You'll hear, then, those musicians who seemingly have been "playing in the wings."

All models, except The Abbey, Jr., equipped for the "250" tube and phonograph pickets.

markably consistent and never obtrustre.

"The Silver Cord" is somewhat short of being a great play, because its soft in Flags and a well-written play, and under the unsually good auspices of its present production is therefore amply worthy of attention.

The applause for the principals in the play was decidedly enthusitatic, and the stage became a vertiable flower shop following the final curtain, so numerous were the tributes. Speeches were made by Mayor Cryer, L. E. Behymer and others. Calls of author falled to bring Mr. Howard to the stage although the sudicince.

WALKER FAME GOES TOO FAR

New York Mayor Dunned for

NEW YORK, Nov. 20. (Exclusive) — The only James Walker known to a collection agency in Marland, Okla., is the Mayor of New York. That's the explanation of the

The list was so steep and water so deep in the boller room early Monday it took four men to put a shovet of coal in the furnace.

INQUIRY REVELATIONS

The most striking facts brought out at the Department of Commerce inquiry included:

The discovery of a number of faulty life preservers before the Vestris sailed. They were replaced with new ones.

The statement that the Vestris was sound when the owners of the shiro were given their papers.

The admission that six of liner's coal ports were not inspected, other than to look up at them from the outside.

The failure by anyone to advance a theory for the disaster other than to declare that the sinking ship was inexplicable.

The denial that any inspector had been given or had taken a drink during the four days they were working on the Vestris.

The denial that any inspector had been given or had taken a drink during the four days they were working on the Vestris.

Thomas Conner, head waiter, was the star witness at Mr. Tuttle's inquiry. Stroke by stroke he drew a picture of a floundering, unseen-worthy vessel sent out to fight its vay through the waves as best it might.

Isaac Jones Scott, saloon steward.

COST OF HOOVER JOURNEY TO GOVERNMENT NOMINAL

WASHINOTON, Nov. 20. (4)—
President-elect Hoover's South
American tour will cost the navy littile more than the estimated regular maintenance and operating expenses of about \$400,000 of the battileships Maryland and Utah on
which he will travel.

It was estimated at the Navy Department today that the battleships
would be employed about forty days
each in taking Mr. Hoover to and
from the Latin-American countries,
and that the additional expense to
the Navy may amount to about \$50,000 for fuel and water and incidentals. The regular average operating
and maintenance cost of each vessel is about \$5000 a day.

Secretary Wilbur declined to give
an estimate of the additional cost
of the trip, because it could not be
ascertained how much steaming the
ships will do or the speed of their
voyages, on which fuel consumption
is determined. He added, however,
that members of Mr. Hoover's party were to pay the usual cost of
about \$1.50 a day aboard government ships for food, laundry and
linen, as do other versons using
government transpor tom.

The additional come to the
trip for the ships will be nominal,
Secretary Wilbur declared, pointing
out that the vessels are required to
do a certain amount of steaming
each year.

inen as do other persons using government transportion.

The additional content point in the subject of the trip for the ships will be nominal. Secretary Wilbur declared, pointing out that the vessels are required to a certain amount of steaming each year.

The President Coolidge on the battle-ship and the State Department made arrangements for the trip, Mr. Wilbur said.

In Wilbur said.

To the ships will be nominal, Secretary Wilbur declared, pointing each year.

The President Coolidge on the battle-ship and the State Department made arrangements for the trip, Mr. Wilbur said.

Life looks rosy for Interests. He was churched in the public schools here. Puneral services will be conducted Thursday.

BYRD BARK BACK CANADA SCORES ON HER COURSE PULP INDUSTRY

Buffeted Mariners

Ship Scuds With Heavy List Ruinous Competition Among for Several Days

Explorers Injured as Seas

BY DR. FRANCIS D. COMAN

company and the state of publication reserved throushout the werld!

WITH BYRD SOUTH POLE EXPEDITION ABOARD THE CITY
OF NEW YORK, Nov. 20.—Yesterday the bark City of New York was riding on an even keel for the first time in many days. Chief Officer McGuinness says he thanks the albatross that came aboard Sunday night for our change in luck. We are back on our course, so that our rharted track no longer takes the form of a great question mark.

Blown off our course, so that our rharted track no longer takes the form of a great question mark.

Blown off our course and scudding along with a 30 to 40-degree list to the starboard with all hands working day and night under shortened sail lashing deck cargo, battening up shifted cargo in the hold and at work in the coal bunkers, with the wind whistling like a soul in distress, we were hardly in accord with the opinion of Capt, Melville that we had only a moderate gale.

gale.

RELIEF GENERAL

Not one person aboard but was relieved that the decks were no longer wash nor the horizon rushing up and down. In. the galley a merry time was had by all. Above the din of sliding pots and pans could he heard Reichart's and Oreagh's picturesque language as another tempt at soup ran up the wall. When we finally did get the soup we enjoyed it thrice. "once down. once up and once in our lap."

Every movable object had to be securely lashed, for sudden starts would send gear leaping and rolling most disconcertingly. At the wheel the helmsman soon found he had a man's-sized job; Blackburn, in an unguarded moment, was thrown completely over the wheel, landing on his head, although we have all wondered that feet such as his ever left the deck.

Breaking a porthole a sea floated Tom Murow with part of his cabin effects out in the after passageway. Radio Officer Berkner, after standing a long, continuous duty, reclined in his bunk only to be dashed to the deck when it broke down under the strain of the seas after he tell asleep. Czegka found a spare davit bent around his knee, and the United States marine in him called fervently to bless the ordinary seaman who was supposed to have lashed the heavy iron support.

NARROW ESCAPE RELIEF GENERAL

NARROW ESCAPE

Coman, on lookout on the forecastle head, was all but washed overboard as he clung like a banner to
the foresail lary sheet when a giant
sea broke over the boat. Meanwhile
Strom and Johaneson quietly and
efficiently went about their work,
smiling and asying: "This is the
only real sailing we have done."

Jersey, from Newfoundland,
amused himself by picking out
hymns 1 what remained of the
player plano in the bull prn.

All this commotion succenty quietted when one of the beautiful albatrosses which have been near us
came aboard. It must have known
that no one on an old windjammer
would harm it as it proved surprisingly friendly. After we had given
it a hearty meal of suct, it went
on its way, and now the reincarnated spirit of some old mariner
come back to rid ethe seas has done
us a good turn.

Rites Observed for Dr. Harding

SANTA ANA, Nov. 20. (P)—Simple funeral services attended only by intimate friends and relatives were conducted here today for Dr. George T. Harding, father of the late President Warren O. Harding, who died Monday following a paralytic stroke last Friday.

About the aged nan's bier were gathered his widow, a sixter, Frances Wyant of Los Angeles, and his two daughters, Mrs. F. F. Remsberg of Santa Ana, and Mrs. Caroline Votaw of Washington. D. C.

Although O. H. Ferguson, I.

Coolidge Fiancee Tells Her Plans

NEW ORLEANS, Nov. 20. (P)—Miss Florence Trumbull, daughter of Gov. Trumbull of Connecticut, told newspaper men today that she and John Coolidge, son of the President, will be married, but not in the White House.

"Has there been any formal announcement of the engagement?" she was asked.

AUCTION TODAY! Wed., Nov. 21st—11:00 A.M.
SET LIKE A JEVEL AMIDST A GALAXY OF HIGH-CLASS HONES,

REVISED CONTRACTS

REVISED CONTRACTS

A few years ago, the letter says, the government concluded that "if financially strong industries were created they would be able to continue operations, maintain pay rolls and markets, as well as protect thousands of investors all over Ontario through periods of depression. "It was with this end in view and to bring this about that the government a few years ago revised the existing contracts with the companies and enlarged their scope. "Substantial urban communities were built up and large agricultural areas were developed, practically dependent upon the forestry industries. "Notwithstanding the assistance the government has given to the house." Indicated abow.

DIVERSITY **OFFERED VISITORS**

Hotel Del Coronado Hub of Wide Range of Resorts, Including Tia Juana

State which has gained steadily in rity among California well as eastern and foreign visi-tors is the famous Hotel del Coro-nado at Coronado Beach. Not so very long ago its was more generally known as a winter resort, but

growing volume every month of the year.

Other factors that have encouraged a steady travel southward are the marvelous routes of travel for motorists along the coast and inland paved highways, improved train and steamship service, while the recent inauguration of airplane service from Los Angeles and other California cities to San Diego clipped hours off any other mode of transportation to Coronado Beach.

An incentive also for tours to the Southland is the quaint old border town of Tia Juans, Baja California, greatly improved and modernized as a place of interest by Agus. Callente, beautiful amusement center recently built and now maintained by American capital. One of the chief attractions during the winter months at the border town is the 100-day horse-racing meet which formally is opened each year on Thankagiving Day. Matinees offering a program of eight or more races are held every afternoon except Moncays. The track and the adjoining amusement center at Agus Callente are reached in a halfadjoining amusement center at Agua Caliente are reached in a half-hour ride over the Silver Strand Highway from Coronado.

FEATURES ADDED AT STILLWELL'S

New Bungalow and Dance Pavilion Completed for Winter Season

The recent completion of a six-room bungalow with a fireplace and accommodating from eight to ten persons is announced by Mr. and Mrs. Carl Stillwell, proprietors of Stillwell's Camp at Big Bear Lake. Stillwell's Camp at Big Bear Lake.

The camp, in addition to the new bungalow, comprises a main building which contains an elaborately decorated dance hall with a huge fireplace and lounge, a store, a coffee shop and living quarters; another building consisting of twelve bedrooms with showers and toilets and a group of housekeeping cabins furnished for winter as well as summer occupancy.

furnished for winter as well as summer occupancy.

The dance hall, which is seventy feet by 120 feet in size, boasts of an electrically operated system of vari-colored lights, including a group of stars in the ceiling which twinkle automatically.

Stillwell's Camp frequently is carnival headquarters for winter sports at Big Bear Lake, at which time hundreds of persons make merry in the snow that falls at the lake resort, which is 7000 feet in elevation. Skating, skiing and tobogganing are enjoyed by all. A slide two and one-half blocks long has been constructed at the camp, over which great speed is attained by the sled riders.

COUTHLAND LACKS ONLY WINTER OF DISCONTENT

No Other Place Affords Such Wide Diversity of Desert, Mountain and Rumbling Seashore

Southern California enjoys all seasons except "the winter of our discontent." Rather, it knows all seasons except that one, and enjoys all it knows. And the ever-increasing flood of winter

our discontent." Rather, it knows all seasons except that one, and enjoys all it knows. And the ever-increasing flood of winter visitors gives evidence that winter is the season most people enfoy most here. For this is the one place in America where people who can't enjoy winter anywhere clee can really enjoy it, every day, week after week, month after month.

No other place affords such interest for those who have the means to go about as they wish—and here it takes less means than anywhere else. They can go surfbathing on Thanksgiving or Christmas or New Year's. When it rains in town it snows in the mountains, and within an hour's drive they can reach snowy peaks and wintersports. If the delights of rose gardens and scented orange groves grow stale, they can go to the desert, where winter is the most wonderful of seasons, with air that intrigorates the body and makes the heart beat faster, sunsets which hreak the hearts of painters with their umpleturable beauty, and mirages and mystery.

And wherever they go they find themselves among the sort of people they like, for the great and near great, the artistic and the interesting of America flock to Southern

California the ideal place for winters with their umpleturable beauty, and mirages and mystery.

And wherever they go they find themselves among the sort of people they like, for the great and near great, the artistic and the interesting of America flock to Southern

BIG BEAR WINTER PARADISE

ALTERNATE ROUTES

The shortest winter route to Big Bear Lake is via San Bernardino, through Patton, where a State incoming the sane asyium, the grounds of which are open to visitors, is located, and on up the City Creek grade, an easy, wide grade into the heart of the San Bernardino range. This route San Bernardino range. This route seling.

Another route, used more in winter than in summer, is via San Pernardino, the Cajon Pass, Victorial and the desert road, a distance of 150 miles. This route is exceptionally scenic in winter and spring, as during the winter period the desert is ever alluring, affording vistas at every turn, found only in the one-time forbidding desert, and during the spring the blooming wild flowers are evident in profusion.

Many persons go up via the City Creek road and return via the desert, or vice versa.

Extensive improvements and remodeling, costing in the neighborhood of \$150,000, have been accomplished, included in which is a new bath-house and two modern swimning pools.

The bath-house comprises twenty-five women's dressing-rooms, a group of tile mineral baths for both women and men, and several shower baths.

The swimming pools are fed by a spring located in the resort grounds, which continually flows a tem-inch stream of naturally hot sulphur water, which bubbles out of the ground at a temperature of 138 deg.

Eight two-room cottages, each room structed at Warner's. The cottages which previously housed the guests have all been renovated and refinished inside and out.

The lobby and dining-room have been refinished and they also come in for their share of new furnishings.

The resort is situated a pleasant

three trips

See these famous nearby beauty-spots the low cost way

Only two hours' ride from Los Angeles over a thrilling scenic railway is Southern California's far-famed mountain resort.

From its mile-high summit you look down on rolling hills, val-leys, orchards, 56 thriving cities, the blue Pacific. You see all the Southland in one vast panorama.

Hospitable Mt. Lowe Tavern with its forty cottages is year 'round headquarters for hiking, mountain-top tennis, sky-high pony trips... and other outdoor sports. You'll enjoy dancing, games and social events, too. Five trains daily from Pacific Electric Main St. Station, Los Angeles. Round trip, \$2.50. Spe-cial two-day rate including fare, four meals and lodging, \$7.50. (Not good on holidsys.)

Beverly Boulevard This De Luze Motor Coach trip is called one of the most beautiful scenic drives in America. Down Beverly Boulevard to the ocean you ride in luxurious parlor car coaches through exclusive residential distriers, past homes of the motion picture stars and finally along the Riviera-like seacoast to Castellammare. Round trip from Pershing Square, Los Angeles, \$1.00.

Orange Empire

This famous excursion trip (with lecturer) takes you through 150 miles of the world's greatest orange region, where fragrant blossoms ripen into golden fruit in the shadow of snow-capped mountains. The all-day tour includes a stop at Mission Inn, Riverside and an auto drive through Smiley Heights, Redlands, 19 cities en route.

sands, 19 cities en routs.

Special train leaves Main Street
Station at 9 A. M. Wednesdays
and Sundays. Total fare, \$4.00.

Wherever you want to go in
Southern California, Pacific Electric trains will take you the direct, comfortable, convenient
and lowest-cost way.

Ask conductors or agents about money-saving Sunday Passes. Also write for free booklet, "Lie-tle Journeys to Beauty Spots in Southern California."

of Los Angeles. There are more automobiles here than anywhere else for the simple reason that here motoring is pleasant all the year. Good roads will take you to sea or mountains, desert or forest, or "the fruit basket of the world." Only twenty-seven miles from downtown Los Angeles are peaks which catch the snows, and on the way one may look up to them across hedges of roses or past stately palms or through the scented lace of orange orchards. The desert is only a little farther. And within four hours' drive, down in the San Diego mountains, one can come on quaint Indian villages in which the basket-weavers and pottery-makers still ply their anchest

Every year the desert becomes more popular with winter visitors. This is attested by the fact that fine hotels and resorts are increasing steadily in numbers. Palm Springs, Death Valley, Coachella Valley and Imperial Valley arouse the wonder and delight of people who always hereiofore have thought of deserts as places to dread and avoid—they now are scenes of continual pleasure for ever-increasing throngs of pleasure-seekers. Desert plays and pageants are becomet plays and pageants are becomet plays and pageants are becomet plays and pageants are becomet.

ert plays and pageants are becoming popular.
Whatever the intangible lure of the desert is, certainly it is there. Perhaps it springs from a winter climate which makes people feel at their best, and so makes life take on zest. Perhaps it is an atavistic yearning to get back within at least padded touch of the stark realities of primitive existence. Perhaps it is the lingering boy or girl in us all which makes us long to play at being Indians or adventurous ploneers.

MEXICAN LABOR | CITY IN TERROR CODE DEBATED

Exp'ains Purpose

Action Postponed to Later Date by Group

MEXICO CITY, Nov. 20. (F)-

MEXICO CITY. Nov. 20. (P)—The National Congress of Workers and Employers today debated that of the conditional president-elect, but postponed action. The proposed law would obligate every able-bodied Mexican to learn a trade, art or profession, to work at it for at least a year in Mexico, and to assume any post antigned him by Federal authorities in time of national emergency.

The recommendation of the congress instead of by the President, as provided in the initial draft. The code stated that draft excitent would have to day at their assigned posts for not more than one mounth. The debate, however, developed a sentiment in lawor of the emergency and passed.

RUSSIA CITED

FRENCH EXCITED SYNTHETIC COAL 'HOT STUFF' COOLIDGE NEWS BY STRESEMANN Scientist Tells How Laboratory Can Produce Fuel It

Public Opinion Reacts to Reichstag Speech

Editor Links Washington

Evacuation of Rhineland Set at Price

"Americans say, 'We do not recognize either the Versailles Treaty or the reparations.' The Germans say, 'We do not recognize either the Allied war debts or the Allied agreement with the United States.' One wants to kill us and the other wants to knock us down."

For France there is no question of the Rhineland until it receives adequate guarantees of enough reparations to pay the United States and Great Britain, and defray the cost of rebuilding the devastated regions. Even if Prime Minister Baldwin withdraws his troops of occupation the French polius will remain, Quai D'Orsay has indicated.

The Paris government views the troops of our properties of the ammore the odor from illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the odor from Illuminating gas, coal men extracted the ammore the other wants to kind the other wants to kind used to the properties of the grassities of the control of the Amount of the properties of the properties of the control of the properties of the properties of the control of the properties of the control of the properties of

weevil.

Mr. McDowell said increased butter production of cows in England
has been traced directly to feeding
on grass enriched by fertilizers synthetized from coal.

UPHELD BY REICHSTAG BERLIN, Nov. 20. (F)—The Reichstag today rejected a motion of nonconfidence in Dr. Gustav Stresemann, the Foreign Minister, by an overwhelming vote of 219 to 98.

The motion was introduced by the German Fascisti and those who supported it were the Pascisti, the Communists, the Christian Farmers and the German Nationalists.

YECTORY FOR HIM.

VICTORY FOR HIM which is plentiful in the Northwest, some day will compete with bituminous coal and may result in building up new regions and branches of industry in various parts of the world, was made by Dr. F. P. Kerschbaum, German technician.

America's stores of lignite coal are practically untouched, and he The Foreign Minister, who yester-ay presented his views on the va-

came off victorious.

Judging by the comment of this morning's papers all parties except the extremists of the right and left are virtually in agreement with Dr. Stressmann's views on evacuation of the Rhineland, disarmament and America's stores of lignite coal are practically untouched, and he gave as the reason the fact that bituminous coal in this country is cheaper than in any other part of the world.

Some day, however, the speaker said, American lignite fields will be exploited as is being done in other countries, hotably Germany, where methods of carbonizing the coal have been developed.

From the carbonization process coke and tar are obtained, he explained.

In North Dakota, which abounds.

of the Kninesiand, disarramment and reparations.

The Foreign Minister explained in the Reichstag yesterday that he is opposed to linking evacuation with reparations. He said that Cermany is justified in demanding evacuation of occupied territory at this time and Germany will not consent to pay additional reparations as a price for early evacuation.

DISARMING VIEW

In regard to disarmament, he said that all single conventions between governments must be completely subordinated to general world aims and aspirations.

Even the opposition Nationalist press today unreservedly supported Dr. Stresemann's demand for evacuation and disarmament. It agreed that only such a final solution of the reparations problem can be accepted as will not exceed Germany's ability to fulfill.

Former Lyricist

NEW YORK, Nov. 20. (P)—The local office of the Nippon Yusen Kaishs today announced that the freighter Nagasaki Maru, reported to have foundered off the coast of Japan last Friday, was not its vestil as a strongusty stated. Takes Own Life Japan last Friday, was not its ves-sel as was erroneously stated.

The New York office of Nippon Yusen Kaisha was notified that the Nagasski Maru, owned by the com-oany, is safe and that the vessel mentioned in the dispatch probably was a small freighter of the same name. Zinn, 55 years of age, Seattle, once a musical-comedy director and a lyricist, shot and fatally wounded himself late yesterday at the La Salle-street railway station. Despondency over the death of his

NORWALK CONTRACT LET Spondency over the death of his wife, known on the stage as Frances vanita Grey, was a reason assigned for his act.

Notes found in his clothing directed that Al Jolson, Leon Errol and Hal Skelly be notified of his work on assembly hall, chapel and death, and that burial be made in Potter's Field.

NORWALK CONTRACT LET

SAGRAMENTO, Nov. 20. (P)—The State Division of Architecture to-day awarded a \$20.233 contract to the R. J. Chute Company of Los Angeles for general construction work on assembly hall, chapel and warehouse buildings at the Norwalk State Hospital at Norwalk.

ful in th

plained.

In North Dakota, which abounds in lignite, a 160-ton plant for carbonizing the fuel his been completed recently, the speaker said.

Dr. Edwin E. Slosson, director of science service. Washington, added a new kingdom to the familiar animal, regetable and mineral realms, calling it the "synthetic kind," which is the newly opened field of industrial chemistry.

Test Fabrics—Design—Manufacture—Ship and Sell Direct to You!

Your Foreman and Clark suit and overcoat have had Foreman and Clark supervision from the virgin wool to the hand-tailored product. Careful scrutiny follows every detail—even to the quality of thread in the hand-tailored buttonholes.

We buy none but the finest woolens, in exclusive patterns, in huge mill runs from the foremost mills, such as Princeton, Glencairn, Germania, Londonderry, Hockanum, Strong-Hewat, Prendergast, Lexington and other outstanding units in the industry. The mills shrink them—we shrink them. The mills test them we test them-with the most searching scientific tests of wear and worth, weave and weight, stress and strength. Prove all these things yourself. Take a swatch of our woolens any custom tailor.

Designed by Noted Stylists

Our Fifth Avenue Designing Department.!s forever on the alert, tagging advanced style trends, originating new, distinctive smart lines—keeping weeks ahead of the industry. We have twice as fast retail turnover and four times as fast factory turnover as any institu-tion in the clothing business. You get the latest styles 6 weeks—not 6 months—after they are designed and tailored.

Thousands of skilled workers in our five huge Eastern Daylight Factories fashion and finish ten thousand garments weekly.

OUR INCOMPARABLE GUARANTEE

It is in the pocket of every FSC garment. We guarantee fit, weave, wear and satisfaction. We go even further—we guarantee service-after-purchase, as long as the garment lasts. We sponge, press, minor repair any FSC garment without cost to you. We urge you to use this service—thousands are doing it. Every FSC store in the chain gives it—cheerfully and efficiently.

Republic Struggles Against Great Obstacles

President Leguia Specially Friendly to America

California Tourists Greeted Warmly in Lima

BY FRED HOGUE

ABOARD CITY OF LOS ANGE-LES, Oct. 21, (By Mail)-Peru, land of the Incas, cradle of the race that

LES, Oct. 21. (By Mail)—Peru, land of the Incas, cradle of the race that once populated exclusively the continent of South America; with your burled Ninevels and Tyres; with your sepulchers of kings as great in their day as Cyrus and Alexander; with your ruined temples about which still linger the spirits of the gods of a faith that is suppressed but not extinct; land of tradition, supersition, romance and misery; with the post of the gods of a faith that is suppressed but not extinct; land of tradition, supersition, romance and misery is suppressed but not extinct; land of tradition, supersition, romance and misery is suppressed by the care of the descendants of the sum, Allein races have set up their standards on the very pedestable where once stood the images of your warriors and your saints; a veneer of civilisation covers your pagan mudity; your past is buried under mounds of earth sealousty guarded from foreign despoilers and exavators—a dead past that cannot return until the dead throw of their whing sheets. The last spark of glimmering life in the also of former empire is extinct—ashes that are still revered by the celemated descendants of a one mightly people.

NEW LIFE STEUGGLES

A new life is struggling for existence among these runs, like fetus issuing from a cadaver. The young growth of a new civilization has been transplanted from lands north of the equator. It is tended by men of Spanish descent, and watered by American dollars. Peru is being trained to keep step in the advancing line of modular proposition will be advancing line of modular proposition will be advancing time of modular proposition will be advancing line of modular proposition will be advancing line of modular proposition will be size to the past.

I have met Senor Augusto B. Lequis, President of the republic, and the proposition will be advancing line of modular proposition will be advancing line of modular proposition will be advancing to the past of the pas

comprises three-fourths of the whole persists in marching toward the future with its face turned to the past.

I have met Senor Augusto B. Legula, President of the republic, and members of his government. I admire them for the confidence and the resolution with which they are attempting a task that seems to most of our party to be hopeless. They are seeking to raise the mass of the population to a higher level—and the mass is a quagmire that threatens deliy—hourity—to engulf them.

President Legula has been alternately, President, exile and President. Ex rules in the cultivated plain of Lima but revolution sixules in the mountains and in the guident. He mountains and in the guident of Pizarro, slain by his own followers in the first revolution after the conquest. I have seen the bones of this most interpol of the conquestadors, preserved in a seguicher of glass in the Lima cathefral. He has been maligned, perhaps misunderstood. The belief of his century is not that of our own. Only faith in Divine guidance and a heroic mission could have led a wittle company of less than 150 men to lay violent hands on a mighty king surrounded by an army of 200,000 warriors.

PTZARRO'S CAREEB

He despoiled the heathen to enrich a Christian monarch, despoiled them as a necessary procedure for their conversion. Although I am no Catholic, I am no souffer. I bought two candles to be burned on the altar, and a mass for the peace of his departiced spirit with an a merican dollar.

Ambassador Moore was not in Lima the day of our visit; but his first assistant, Mathew E Hanna, a Connecticut Yankee in a Peruvian government. They have loaned slope of the President to receive us in the his palace. When he learned of the crusted of the crusted our visit; but his first assistant, Mathew E Hanna, a Connecticut Yankee in a Peruvian government. They have loaned for the President to receive us in the his palace. When he learned of the crusted in the president to receive us in the his palace. When he learned of the crusted in the president to re

a Connecticut Yankee in a Peruvian court, arranged for the President to receive us in the his palace. When he learned of the cruise of the city of Los Angeles, with its 250 passengers from the Pacific Coact and Hawaii, he extended to us an informal and graciously cordial welcome. David Hamburger, vice-president of the Los Angeles Chamber of Commerce, extended the formal greetings of our party. Mr. Hamburger spoke briefly of the growth and development of California, of our desire to co-operate in the development of the natural revelopment of the previous natural revenues the previous natural revenues natural revenues natural revenues the previous natural revenues natural revenues natural revenues natural revenues natural revenues natural revenues natural reve

us an informal and gracolusy our dial welcome.
David Hamburger, vice-president of the Los Angeles Chamber of Commerce, extended the formal greetings of our party. Mr. Hamburger spoke briefly of the growth and development of California, of our desire to co-operate in the development of the natural resources of Peru, of a hope for a more frequent exchange of visits between the people of the two republics.

President Leguia listened attentively. Although the greeting was rather overcrowded with statistics, the President showed no impatience. In reply he expressed his amazement at the wonderful growth of Southern California. He spoke of his visit to Los Angeles forty years ago, when the city had only a population of 40,000. He expressed a desire for friendly co-operation and association between the two peoples of the west coast, a hope that the progressive spirit of those who had builded a city in a desert might be imparted to his own people.

RYE HARBOUR, SUSSEX (Eng.)
Nov. 20. (P)—This was a village of mourning today. The community joined in a funeral for the seven-teen victims of the life boat tragedy of last Thursday. Fifteen of the men were buried in one big grave under a spreading yew tree within sound of the waves under which the bodies of their other two comrades rested.

Every shop in the village was sown people.

of those who had builded a city in a desert might be imparted to his consequence.

James Irvine, owner of the Irvine ranch in Orange county, extended to the President the greetings of the San Francisco Chamber of Commerce and Charles D. Living and the contract of the commerce and Charles of the commerce and C Cartoonist Sued

KISS ON CHILD'S LIPS SAVES MOTHER FROM FIRING SOUAD

PARIS, Nov. 20.—How the parting kiss with her 12-year-old daughter saved the life of Mme. Ada Bodart, who was condemned to die with Edith Cavell, was told today by the woman herself, who lives modestly in Paris.

Condemned to death with the English nurse for their activities in aiding the Allied soldiers to escape to Holland, Mme. Bodart managed to acribble a note on tissue paper telling of her predicament. She concealed it in her mouth.

A couple of days before the sentence was due to be carried out of Belgium before they were caught.

A NEW POWERPLAN turniture 5 made & -1--1-+ 1 a The new Packard eight-in-line powerplant, compact, powerful, vibrationless, is the development of five years of study and rese

-which makes every Packard a Packard

THE new Packard eight-in-line powerlant for its 126 and 133-inch wheelbase models reflects Packard's 30 years of expeof motors.

In introducing this new motor Packard is but logically following its own engineering leadership. For Packard has pioneered the way in eight-in-line development—and the whole history of motor car engines during the past six years has been a tribute to Packard foresight.

The eight-in-line engine originated in Europe where it was developed by those manufacturers who have since unanimously abandoned the V-type for it. But Packard was the first prominent American maker to introduce it.

Packard's lead was promptly followed by other American builders so that, whereas prior to 1923 thirty American manufacturers of multi-cylinder cars were making V-type motors, today there are but four. Whereas, previously, twenty-two European manufacturers had been marketing V-type motors, today not a single one is still using them in stock car production.

Five years of constant study of the straight eight, based solidly on Packard's successful development of this type engine for its 136 and 143-inch wheelbase cars, had so firmly proved the basic merits of the eightin-line principle that Packard decided to completely standardize on eights.

With the new motor Packard puts eight-cylinder smoothness, power and perform-ance at the command of thousands who in the past did not feel they could afford the supreme luxury of transportation which a Packard Eight provides.

The Packard Standard Eight 3-pass. Sedan costs only \$2435 at the factory. body models. We want you to its even flow of accel vibration period—at any of clean and accessible design bearing crankshaft consti-ruggedness and long life. which permits the same rot interior allowed by the six-on the same wheelbase.

swer is negative, Mr. Buxton purposes to press for a reason for such a departure.

Whatever the good intentions of Great Eritain and France may have been, the British public in common with the American public, seemed convinced that Britain and France had secretly bound themselves against the United States on the same issue of cruiser construction that caused the breakdown of the Geneva disarmament conference.

CONDEMNATION SWEEPING
Americans at home probably do not fully realize the aweeping condemnation of the Angio-French accord by the British press and public. The best that newspapers supporting the government could say was that it was made with the best of intentions.

Certainly not since the World Warhas the British press and public. The best that newspapers supporting the government could say was that it was made with the best of intentions.

Certainly not since the World Warhas the British press so universally condemned a policy of the government and the method of rusking it known.

Angio-American relations which were momentarily subjected to se-

Certainly now as the British press so as condemned a policy of the government and the method of rosking it known.

Anglo-American relations which were momentarily subjected to so evere strain now appear to be healing without a serious scar. This despite the fact, according to one famous British observer of Anglo-American developments, there has been 'no more dull and obstinate mishandling of American psychology' by Great Britain since the days of George III.

Even with the Anglo-French pact chead and buried, the important hing, the world problem of disarmament, still remains, and the approach to its solution during the approach to its solution during the most few months will have much to do with Sir Austen Chamberlain's political future. Next month of will have much to do with Sir Austen Chamberlain's They are: President, Mrs. Elia political future. Next month of the most few months will save much to do with Sir Austen Chamberlain's They are: President, Mrs. Elia political future. attempt to solve the deadlock not only failed, but as the saying goes in England, "doubled the muddle."

So far Sir Austen has escaped direct criticism. On July 30, when he gave to Britain and the world the first word of the Anglo-Fronch agreement he was a sick man. By many people it is believed firmly that had the British Foreign Secretary not been wracked by the pain of his illness he would have explained the background, the scope and fu'll purport of the proposals in such a way as to have avoided doubt and misunderstandings in

Governors Flay Stock Gambling

the first word of the Anglo-French agreement he was a sick man. By many people it is believed firmly that had the British Foreign Socretary not been wracked by the pain of his illness he would have explained the background, the scope and full purport of the proposals in such a way as to have avoided doubt and misunderstandings in America and elsewhere, and the debacle to British and French diplomacy would not have occurred. Instead Sir Austen barely mentioned the agreement with France and a few davs later, apparently a broken man, he boarded a ship at Liverpool for America. Britain was shocked by newspaper photographs showing Sir Austen, his face distorted by pain and his tall flagre bent like that of a very old man, leaning heavily on his son's arm.

Now he comes home with his health restored, and the considerations that held back his would-be critics do not apply.

CON'

WELLINGTON (N. Z.) Nov. 20.

(P)—Returns from las' week's liquor referendum still were incomplete to-day because all the absence votes had not been counted. It was certain, however, that a majority of more than 200,000 double that of the first estimates, had been recording eyeterday.

The contestants were: Ben F. Howard of Reno, Nev., who claims the championship: Mrs. Fate Mayer of Caxuand, and J. B. Starr, cow herdsman. The calls were sent out over the first estimates, had been recorded in favor of continuing the licensing system.

There is some belief that the government of J. O. Coates, Prime Minister, which lost its Parliamentary majority in the elections, suffered to laining the prohibitionist tendency of awarded.

censing system.

There is some pelief that the government of 1. O. Joaies, Prime Minister, which lost its Parliamentary majority in the elections, suffered from the prohibitionist tendency of some of its supporters.

HURCH AND DRY GROUPS NOT PLANNING TO DESCEND ON WHITE HOUSE

WASHINGTON, Nov. 20. (Exclusive)—No organized religious or pro-hibition, groups will descend upon the White House after March 4. haraseing the new Fresident and his administration for reward for the part they played in the nation-

America except the evils of mad gambling in stocks and cotton, "declared the Alabama executive.

"Right now there is more money being put up by financiers on long and shorts in cotton and with the buils and bears than is actually loaned to farmers to produce the cotton crop."

Gov. Hammill of Iowa agreed with Gov. Graves, and Gov. McMullen of Nebrasia, chairman of the conference, said an uneconomic situation was caused by gambling in wheat, cotton and stocks.

Wet Lead Grows in New Zealand

WetLINGTON (N. Z.) Nov. 20.

(P)—Returns from las' week's liquor referendum still were incomplete to-day because all the abcrute varies and continues of the method to the promise of the campaign. These organizations fought for him they fought for America. They are entitled to no rewards for doing their simple duty and they want none, save the privilege of all good citizens to uphold the hands of the government in the task which lies about the sales of the campaign.

CALIFORNIA CO-OPERATIVE CREAMERY COMPANY

in Southern California

As one of the largest producers of milk in the State, the California Co-operative Creamery Company (owner of Burr and Sanitary Gold Seal Creameries) serves more than 75,000 customers in the Los Angeles area. Products are distributed through 345 retail trade routes.

These Debentures are the direct obligation of the Company, whose total net assets exceed \$4,000,000. After deducting all current liabilities, accounts payable, deferred charges, intangibles and first mortgage bonds, net assets amount to approximately \$2225 for each \$1000-debenture.

Payment of both principal and interest is guaranteed by the California Milk Producers' Association, a mutual organization which supplies over 50% of the milk consumed in the Los Angeles territory.

We Recommend

California Co-operative Creamery Company

Actual business transacted by the International Re-insurance Corporation during the first four months of operation, has been far in excess of estimates as shown by the fact that grees insurance underwritten during this period amounted to \$1,230,000 as against

International Reinsurance Corporation

THE Corporation commenced business on July 1, 1928, with a paid-in capital and surplus of \$3,000,000, which constituted its entire gross assets. The balance sheet, as submitted to the Board of Directors on November 13th, showed gross assets of nearly \$3,900,000, an increase for the four months' period of

The Corporation was organized by a strong group of Eastern and West-ern insurance and business men and maintains head offices in Los Angeles. It is well worth noting that the upbuilding and operation of the Corpora-tion have shown the lowest management cost of any similar concern, thus far organized in the United States.

At present market prices, the Corporation's capital shares offer a highly attractive investment with opportunity for substantial appreciation in value. An interesting descriptive analysis will be mailed you on request. Just send name and address below.

LOS ANGELES CURB

In response to the general air of bullishness the market turned distinctly upward yesterday and oil stocks literally ran away with themselves on the Los Angeles Curb Exchange. MacMillan Petroleum jumped more than 3 points to set a new peak at 41% and closed at 4:1-4. Mexican Seaboard continued its reaction and sagged 7-8 to 631-8. Barnsfall A gained 3-4 to 473-4, and the rights sepoint to 24%.

Demand was especially keen for the lower-priced issues. Buckeye

Legal for the Investment of Trust Punds, in the Opinion of Counsel, under the Laws of the State of New York

\$7,350,000

Textile Building

Textile Properties, Inc. First Mortgage Six Per Cent Sinking Fund Gold Loan

Location: The Textile Building, one of the most prominent and successful buildings in New York. City, occupies the entire block front of the east side of Fifth Avenue between East 30th Street and East 31st Street. Located on Fifth Avenue, one of the principal thoroughfares of New York, and within three blocks of the intersection of Fifth Avenue and 34th Street, one of the main arteries of east and west traffic in the city, the building is strategically situated about midway between the Pennsylvania Station and Grand Central Terminal. Within a radius of four blocks are located buildings of such well established firms as B. Altman & Co., Gimbel Brothers, James McCreery A Co. E. H. Many & Gimbel Brothers, James McCreery A Co. E. H. Many &

to afford maximum natural light and ventilation. The building is located on a plot of approximately 36,000 square feet, contains a net rentable area of approximately 452,000 square feet and is adequately served by ten

Security: This loan will be secured, in the opinion of counsel, by a closed first mortgage on the land and building owned in fee at 295 Fifth Avenue, New York City, known as the Textile Building. The property has a frontage of about 297 feet on Fifth Avenue, 164 feet on East 30th Street and 200 feet on East 31st Street, or a total of about 561 feet of street frontage. The plot, control of the street frontage.

sisting of a total land area of about \$6.00 to is one of the largest single plottages on Fini The total value of the mortgaged property, as of by independent appraisers, is at least \$11,000, value of the land has been included in the above at \$4,800,000.

This loan represents less than 64 per cast of the praised value of the property and will be based \$2,400,000 seven per cent general mortgage states in gold bonds.

Management: The der t

Earnings: The Corporation certifies that the buildin lished the remarkable record of a full ten of the Textile Building is indicated by the fact that over tenants with a Dun's and/or Bradstreet's rating of \$1.00 as follows:

\$13,000,000 Kingdom of Bulgaria

71/2% Stabilization Loan 1928 Forty-Year Secured Sinking Fund Gold Bonds.

Dated November 15, 1928, due November 15, 1968. Interest payable May 15 and November 15, Principal and interest payable in New York at the office of Speyer & Co. or of J. Henry Schroder Banking Corporation, in United States gold coin, without deduction for any Bulgarian taxes, present or future. Principal and interest will also be collectible, at the option of the holder, in Belgian francs in Brussela, in lire in Milan and in Swiss francs in Zurich, at the banking houses referred to below, at the current buying rates for sight exchange on New York. Coupon Bonds in denominations of \$1.000 and \$500.

Cumulative Sinking Fund sufficient to repay all of these Bonds at or before maturity, to be applied to the ami-annual redemption of Bonds by lot at par, the first redemption to be on November 15, 1929.

Not subject to call before November 15, 1938, except for sinking fund. The Government reserves the right to repay at par on that date, or on any interest date thereafter, all or any part of the Bonds then outstanding, the proposition of the subject to call before November 15, 1938, except for sinking fund. The Government reserves the right to repay at par on that date, or on any interest date thereafter, all or any part of the Bonds then outstanding, the proposition of the Bonds then outstanding, the proposition of the Bonds then outstanding the proposition of the Bonds the Bonds the proposition of the Bonds the B

20,000 Bonds of the above issue have been withdrawn for sale as follows: \$1,000,000 in Belgium by que Belgs pour l'Etranger, Brussels, \$1,500,000 in Italy by Banca Commerciale Italiana, Milan, and \$1,500,000 in Switzerland by Crédit Suisse, Zurich.

These \$13,000,000 Bonds are part of an International Loan, limited (as authorized by the Council of the League of Nations) to yield to the Government a net amount equivalent to £5,000,000 Sterling; the balance of this Loan is being offered as follows: £1,500,000 Sterling Bonds in London by the Ottoman Bank, J. Henry Schröder & Co. and Stern Brothers; £200,000 in Amsterdam by Hope & Co. and Banque de Paris et des Pays-Bas; £100,000 in Prague by Zivnostenská Banka v Praze on behalf of a Czechoslovakian Banking Syndicate, and Fcs. 130,000,000 Bonds in Paris by Banque de Paris et se Pays-Bas, Banque de l'Union Parisienne, Comptoir National d'Escompte de Paris, Crédit Lyonnais, Ctedit Mobilier Français and Société Générale pour Favoriser le Développement du Commerce et l'Industrie en França.

His Excellency Wladimir Molloff, Minister of Finance, has authorized the following statement in behalf of the Bulgarian Government; having been transmitted by cable, it is subject to correction:

The Lean is issued pursuant to the Geneva Protocol of March 10, 1928, as amended September Sth, approved in the Council of the League of Nations by Resolutions of March 10, June 9 and September 17, 1928, ratified by Atts of the Bulgarian Parliament of April 12 and Issuesber 27, 1928, and pursuant to an Act of the Pullament of November 15, 1928, approving the Loan Council. The amount of the Loan is Munical Council of the Issue 1928, approving the Loan Council of the Issue 1928, approving the Issue 1928, approving the Loan Council of the Issue 1928, approving th

The Las will be the direct obligation of the Bul-mina Government and will be secured by a first charge in an receipts from the import, export and other cus-num detes. The receipts from these revenues for the las years ended March 21, 1928, and the estimated about for the current fiscal year, are approximately in history.

\$8,753,000 9,282 000 3,021,000

fir each year, over four times the annual interest and king lund on the entire Loan.

By Resolution of September 24, 1928, the Inter-Allied Cominsion testablished under the Treaty of Neulily) wasted the customs revenues from the first charge for sparations and costs of occupation and the general stage for treaty obligations.

If at any time the ireceipts from the above revenues shall below 150% of the annual service requirements of the Léan, the Inter-Allied Commission hassers to release, at the request of the Council of the Larse of Nations, from the above general charge additional revenues sufficient to insure total revenues equal is a lawness sufficient to insure total revenues equal is a lawness sufficient to insure total revenues equal is a lawness sufficient to insure total revenues and the signal revenues as o released shall be forthwith assigned to the service of the Loan.

The Piedged Revenues will be paid as collected into a special account (with the National Bank of Bulgaria), to be controlled by a Commissioner appointed by the Council of the League and after the termination of his functions, by the Trustess for the Bondholders to be appointed by the Council of the League. The sum required for the service of the Loan will be remitted to the Piecal Agente in monthly instalments for the sec

quired for the service of the Loan, and the received the Piscal Agents in monthly instalments for the account of the Trustess.

From the Proceeds of the Loan, approximately \$7,300.00e will be paid to the National Bank of Bulgaria for stabilising the currency, and approximately \$3,163.000 to the Agricultural Bank and to the Central Cooperative Bank for additional working capital; the balance will be expended under the direct control of the Commissioner, approximately as follows: \$6,083.000 for the improvement of roads, railways and ports, \$2,433,000 for reconstruction work necessitated by the earthquakes of last spring, and \$5,535,000 for the payment of floating debt in order that the revenues of the State may be used to maintain a balanced budget.

The Currancy, which has been subject to only small fluctuations during the past five years, will be stabilized in relation to gold by law.

For the year ended March \$1, 1928, revenues were about \$50,290,000, and the surplus over expenditures was about \$435,000.

Bulgaria, with an area of about 40,000 equare miles,

about \$435,000.

Bulgaria, with an area of about 40,000 square miles, has over 5,000,000 inhabitants, or a larger population than Denmark, Finland, Norway or Switzerland. The country is mainly agricultural, and exports considerable quantities of tobacco, cereals and other farm products.

External loans of Bulgaris were sold before the war in England and leading countries of Continental Europe; the 4½% Bonds of 1907 and 1909 (the last pre-war Loans) were marketed on a 5% basis.

Conversions have been made at 133 Leva to the Dollar and at par of exchange for other currencies,

Application will be made to list these Bonds on the New York Stock Exchange. Pe further information, reference is made to letter dated November 16, 1928, from His Excellency Wiadimir Molloff, Indian of Finance of the Kingdom of Bulgaria, copies of which may be obtained from the undersigned. All proceeding teamertion with the issuance of the above Bonds are subject to the approval of our counsel, Messra, Cadwaller, Wickersham & Taft and associate Bulgarian counsel.

We offer the above Bonds for subscription, if, as and when issued and received by us, at

97% and accrued interest, to yield to maturity 73/4%.

there the right to close the subscription at any time without notice and to reject any application or to allot a smaller than applied for. Amounts due on allotment will be payable at the office of Speyer & Co., 24 & 26 Pine Street, New York lunds, on or about December 3, 1928, as called for, against delivery of Interim Receipts exchangeable for Bonda when ready.

Rancho Santa Fe

Where and What Is Rancho Santa Fe?

RANCHO SANTA FE is a 9000 acre community of small and large country estates where climate, soil, water, modern conveni-ences, protective restrictions and recreational facilities offer oppor-tunity to establish one's home place at reasonable cost and away from the rush of the city.

RANCHO SANTA FE Civic Center, is six miles from the Coast Highway at Solana Beach, 107 miles south of Los Angeles and 28 miles north of San Diego.

Who Is Back of Rancho Santa Fe?

The Santa Fe Land Improvement Company, with ample resources, has spent freely of time and money to develop one of the most beautiful residential and horticultural areas in the world. It has also been fortunate in having the active cooperation of those who have purchased property at Rancho Santa Fe in the development of the

What Type of Estates Is Being Developed?

(1) Residential and (2) Horticultural. Estates which are strictly residential surround the \$200,000 golf course now practically completed. These are generous in size—from half an acre to several acres. Horticultural estates, ranging in size from 5 to 100 acres, are largely devoted to Valencia oranges, avocados and lemons, with lesser plantings of walnuts, peaches, apricots, prunes, pears and grapes.

What Class of Homes Is Being Built?

All homes are of Spanish, Mediterranean or Monterey type, conforming to the traditions of the old Spanish grant of which RANCHO SANTA FE is a part. They range from the modest to the large establishments.

What Sort of Climate?

It is generally agreed that America's finest year-round climate is in a strip bordering the ocean through San Diego County, due to its latitude and effect of ocean currents. Being slightly inland, RANCHO SANTA FE avoids dampness. Mountains protect it from desert winds. Elevation . . . 100 to 350 feet above sea level . . . is such as to induce perfect air drainage and circulation. Mild winters and cool summers—soft air and brilliant sunshine make outdoor life enjoyable every day in the year at RANCHO SANTA FE.

What Other Natural Advantages?

Soil is productive as hundreds of acres of growing orange, lemon, and avocado trees attest. Landscapes are beautiful... eucalyptus trees, the Cuyamaca mountains, San Jacinto, and to the south, the flat top of Table Mountain open up wonderful vistas.

What Are the Restrictions?

Restrictions cover architecture, and also guard surroundings from all unsightly and objectionable things. Requirements of landscaping or building or planting, within one year from date of purchase, secure uniform development of RANCHO SANTA FE and enhancement of values for every property.

What Are the Recreational facilities?

An all-grass, 18-hole golf course, with underground sprinkling system, is now being completed. Miles of bridle paths and trails, Tennis Courts, Surf Bathing 15 minutes away. Fishing, hunting and a wonderful mountain country with its forests of pine and cedar are near by, and San Dego, La Jolla, Coronado, and Tia Juana, are all within a short ride from RANCHO SANTA FB.

What Utilities and Conveniences?

Every modern convenience necessary . . . water, electricity, telephones, etc. Groceries, meats, vegetables, milk, laundry, dry cleaning, ice, school, garage, postoffice, building material depot, etc., at the Civic Center. La Morada, the Guest House, offers its bospitality at reasonable rates to the public.

Personal Care Necessary?

For those without experience or inclination, local service organizations function in matters of Orchard Planting and Maintenance, Architectural Work, Landscaping and Horticultural Inspection. Efficient economical management is available, even though the owner may be a thousand miles away.

How Far Has Development Gone?

More than \$5,000,000 has been invested in the upbuilding of RANCHO SANTA FE. About 200 estates owners are building, planting, and beautilying . . . making of the whole a vast landscaped garden and building higher values at the same time for every one.

Prices? Terms?

Golf Course estates are from \$1200 - \$2000 - \$2500 - \$3500. Terms are especially advantageous, allowing a 20% down payment with the balance in five equal annual payments with interest at 6%. Horticultural acreage is priced from \$400 to \$500 per acre. 20% down and the balance in seven equal annual

How Do I Reach Rancho Santa Fe?

To visit RANCHO SANTA FE by motor, drive down the scent Coast Highway to Solana Beach, and turn inland 6 miles to Ranch By rail, detrain at Del Mar, where visitors who have annotheir coming will be met by automobile.

Santa Fe Train Schedules Are as Follows:

Leave Los Angeles—9:30 A.M. Leave Los Angeles—2:30 P.M. Leave Los Angeles—6:40 P.M. Leave Los Angeles—1:00 A.M. Arrive Del Mar—12:32 P.M. Arrive Del Mar— 5:17 P.M. Arrive Del Mar— 9:16 P.M. Arrive Del Mar— 4:36 A.M.

Reservations at La Morada should be wired for in advance to Mr. S. R. Nelson, Manager, Rancho Santa Fe, San Diego County, for those wishing to stay overnight. Or, if in Los Angeles, telephone RANCHO SANTA FE Information Bureau, 546-547 Roosevelt Building, Seventh and Flower Streets. Telephone MUtual 0111, Station 430.

For the convenience of those who cannot immediately visit the property, com-plete information is available at this office. Illustrated literature, giving the entire story of RANCHO SANTA FE may be had.

Use this coupon for literature to be mailed to you.

ROBERT M. BROWN

To the stranger in Los Angeles

F you have idle capital we invite you to make the closest investigation of our Six Per Cent Building-Loan Certificates.

THE OUTSTANDING "BUY". OF SANTA FE SPRINGS TODAY

"Why Have I Missed

so many genuine investment opportunities

during the past year?" So exclaim thousands of investors today. Moody's not only can tell you why, but can show you how to avoid these "misses" in the future.

Send for booklet, "Catching Investment Opportunities."
